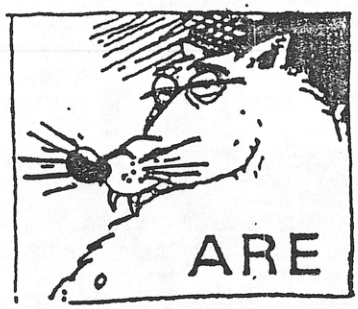
WHO WE



Basically we are a group of very concerned people that have looked at the world we live in and known that we don't fucken like what we see,we are fucken sick to death of hearing about how bad things are from people that do nothing but whinge.To many folk do nothing more than complain about things,without even trying to do anything to change things.

We are using Fight Back as a tool to educate,agitate and hopefully make people organize towards making this planet a better fucken place.

We consider ourselves as ANARCHISTS,but we wont affiliate ourselves with certain other groups until all this internal backbiting stops.We lean towards a cleaner,safer planet so I suppose we're GREEN ANARCHISTS.Below is a list of places you can obtain Fight Back,but remember:NO COMPROMISE IN DEFENSE OF OUR EARTH.

FIGHTING TALK

WELCOME ONCE AGAIN TO ANOTHER LATE EDITION OF FIGHT BACK,THIS WAS SUPPOSE TO BE A SPLIT ISSUE WITH "DO YOU REALLY CARE" ZINE FROM SYDNEY,HOWEVER SONNY HAS DECIDED TO CALL IT A DAY ON THE ZINE WRITING FRONT.I MUST SAY I WILL MISS HIS ZINE. HE DID HOWEVER GIVE US HIS RESIST,ONE BY ONE AND SUBVERSION INTERVIEWS,WHICH WE ARE GREATFUL FOR.AND YOU NEVER KNOW WE MAY BE ABLE TO CON HIM INTO WRITING BITS & PIECES FOR US IN THE FUTURE!

WELL I HAVE TO SAY THAT THE OZ SCENE IS PROBABLY THE HEALTHIEST I'VE SEEN IT SINCE THE EARLY EIGHTIES.IT'S THE FIRST TIME EVER THAT SO MANY ZINES HAVE SURFACED WE HAD A BIT OF A NAME FOR OURSELVES FOR AGES OVERSEAS FOR THE LACK OF ZINES WE PRODUCED,WELL THEY CAN'T WHINGE ABOUT THAT ANYMORE.AS FOR BANDS WHAT CAN I SAY WE'VE GOT BANDS HERE THAT COULD RIVAL ANY OTHER COUNTRY.

AS USUAL I'M WAY BEHIND IN MY MAIL, BUT IF YOU'VE ORDERED ANYTHING BE PATIENT YOU'LL GET IT.AT PRESNT I'M WORKING FULL TIME AT A VEGIE RESTAURANT,DOING A ZINE, DOING A DISTRO,SINGING IN A BAND(as yet to play as we need a drummer)WE DID A STINT PUTTING ON GIGS AGAIN,AND WE'VE STARTED SCREEN PRINTING(seeadd).

SO HAVE SOME PATIENCE PLEASE.
ONLY ONE THING THATS ANGERED ME SINCE I LAST WROTE,AND THATS THE WAY CERTAIN PEOPLE(you know who you are)AND A CERTAIN RADIO STATION ARE SO MUCH HOLIER THAN THE REST OF US.SOME SO CALLED PUNKS GO ON ABOUT HOW CRED THEY ARE AND BRAG ABOOUT THINGS THEY BELIEVE IN BUT DO NOTHING, REMEMBER "TALK MINUS ACTION EQUALS 0" AS FOR THE RADIO STATION THAT RECKONS IT CAN MAKE RULES THAT WE HAVE TO FOLLOW AND IF WE DON'T WELL WE'RE NOT P.C. SO THEY WON'T HAVE ANYTHING TO DO WITH US.INEVER KNEW ANARCHY HAD SO MANY RULES. SO STOP PURGING EVERYONE,MOST OF THEM ARE JUST LEFTIE,COLLEGE,MIDDLE CLASS DO-GOODERS THAT WILL END UP BEING NEXT YEARS LABOUR LEADERS.

STOP HIDING BEHIND THE BLACK FLAG AND GIVING ORDERS,OR YOU MAY DESTROY THE ONLY REAL PUBLIC RADIO STATION THAT AUSTRALIA HAS,AND DESTROY BRISBANES HEALTHY ANARCHO COMMUNITY.GO BACK TO YOUR COMMIE MANIFESTO'S AND LEAVE US TO DO THE REAL WORK.

UNTIL NEXT TIME
KEEP KICKING IT'LL BREAK,
FIGHT BACK,

ANIMAL RIGHTS

The truck pulls up outside your home. You are relaxing with your relatives, when the men come. They start shouting in a language you can't understand. They start herding you up like cattle, scaring you, sometimes slapping you, while you call out to them. But your language is foreign to them, too. The truck full of prisoners is overcrowded, and the men driving show no concern for the pain you endure and drive as fast as they would had the truck been empty. As the death camp draws nearer, the smell of death becomes overwhelming, and your fear and the general panic around you increases. So, who are you? You may be a Jew in Germany during the second world war. But while this doesn't happen anymore to prisoners-of-war, it happens every day to the prisoners-of-man, the animals.

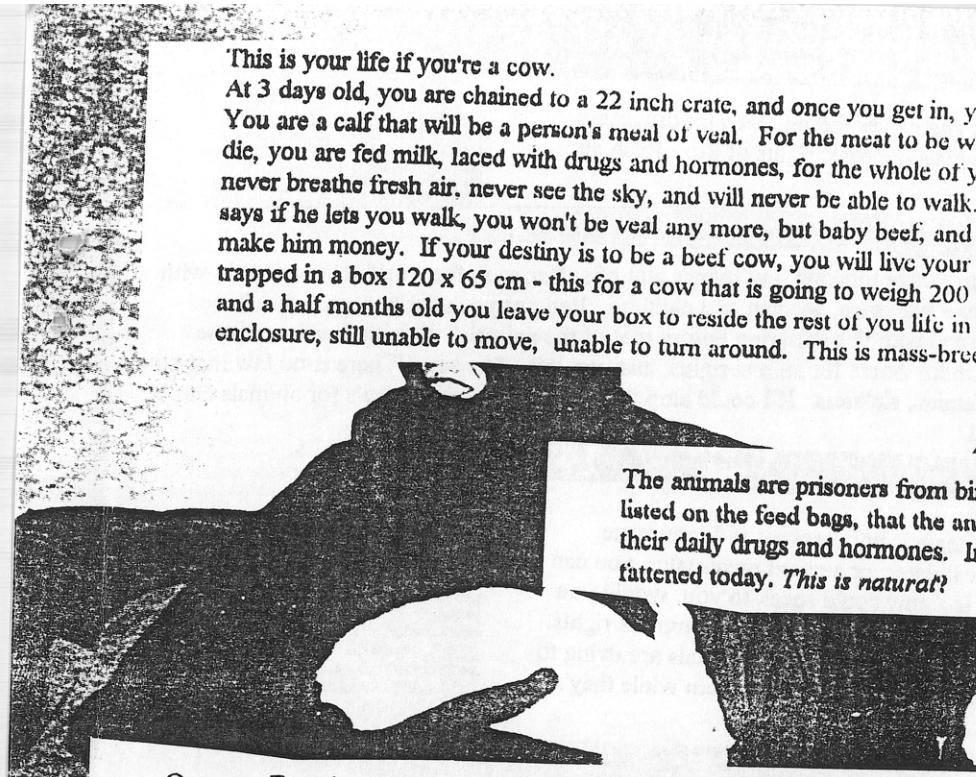
Before 1962, that story would have ended with you having your throat cut while still alive, and for 3 to 5 minutes you would lie or hang by a leg still conscious while the blood drained from your body. People fought against this inhumanity, and now a cow is shot first through the forehead. While once the fight was for the use of the gun in slaughters, now the fight is to improve the conditions leading up to slaughter - the way the animals are transported and kept. Today you will hear about the way animals are kept. You will hear about the business that is mass-breeding and its effect on your health. You'll learn about the life of the cow before it was chow and the chicken before you saw it in a pressure-sealed pack with no neck and no claws. And all the time remember what you know to be true: *eating meat is natural and normal, healthy and humane.*

Firstly to the business of mass-breeding. And it is a business. Biological rules have been replaced with technological rules. The farmer is no longer a farmer; he's become a technician, watching over his business, watching over his prisoners from birth to death.

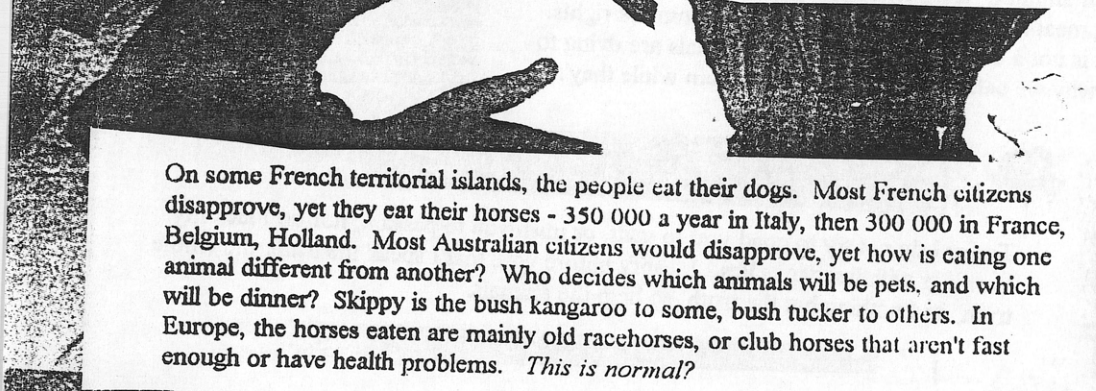
Let me tell you about the life of your finger lickin' chicken. A man bends down and picks up a tiny, fluffy, yellow chick and drops it back onto the conveyerbelt. A conveyerbelt that looks like a long yellow-chick-road. So many little chicks. This is industrial breeding - a production line of steel machines and workers, who carefully select the chickens. They're sorted like chocolates in a chocolate factory, treated as though they're not alive. Females are saved to become hens bred in artificial light, males are destroyed because they don't lay eggs and their meat isn't as good. Tiny live chickens are thrown into a grinder, and come out a grey pulp, hopefully, but not always quite, dead.

The 180 000 hens live, 6 to a cage, pressured, sick, deformed, without ever seeing the light of day. The chickens bred for meat live 50 000 in a room that only just contains them, with the artificial lights on the roof their surrogate sun. This kind of constraint breeds abnormal behaviour; they peck at each other, fight, and lose their feathers. This kind of deprivation leads to stress. This kind of stress brings about hormonal reactions which lead to a drop in the natural immunity systems. So chickens bred in this concentration camp universe must constantly be under medication. The cruelty is noticed most when one or two are let free - paralysed, mutilated, half blinded and bald of feathers; looking like prisoners just released from 2 years solitary confinement. *This is humane?*

This is your life if you're a cow.
At 3 days old, you are chained to a 22 inch crate, and once you get in, you never leave. You are a calf that will be a person's meal of veal. For the meat to be white when you die, you are fed milk, laced with drugs and hormones, for the whole of your life. You never breathe fresh air, never see the sky, and will never be able to walk. Your master says if he lets you walk, you won't be veal any more, but baby beef, and that wouldn't make him money. If your destiny is to be a beef cow, you will live your first 110 days trapped in a box 120 x 65 cm - this for a cow that is going to weigh 200 kg! At three and a half months old you leave your box to reside the rest of you life in a bigger enclosure, still unable to move, unable to turn around. This is mass-breeding.

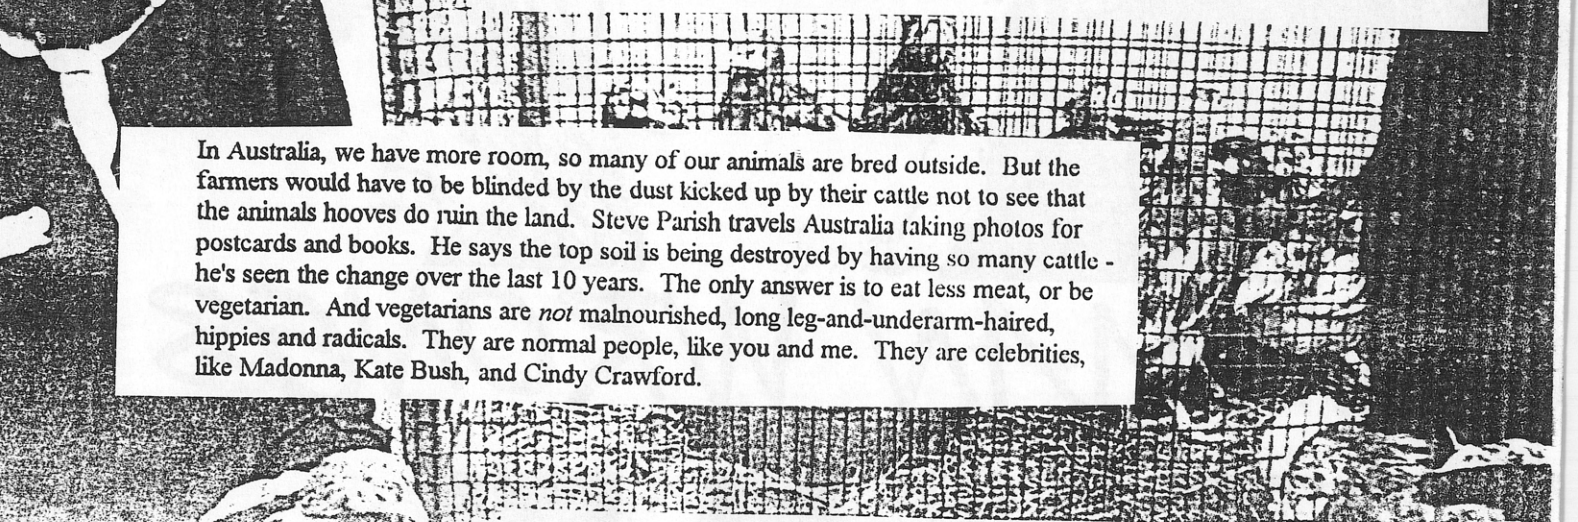


The animals are prisoners from birth to death. One farmer says that the drugs are listed on the feed bags, that the animals could not be kept in those conditions without their daily drugs and hormones. In addition, pigs, calfs and chickens are all artificially fattened today. *This is natural?*

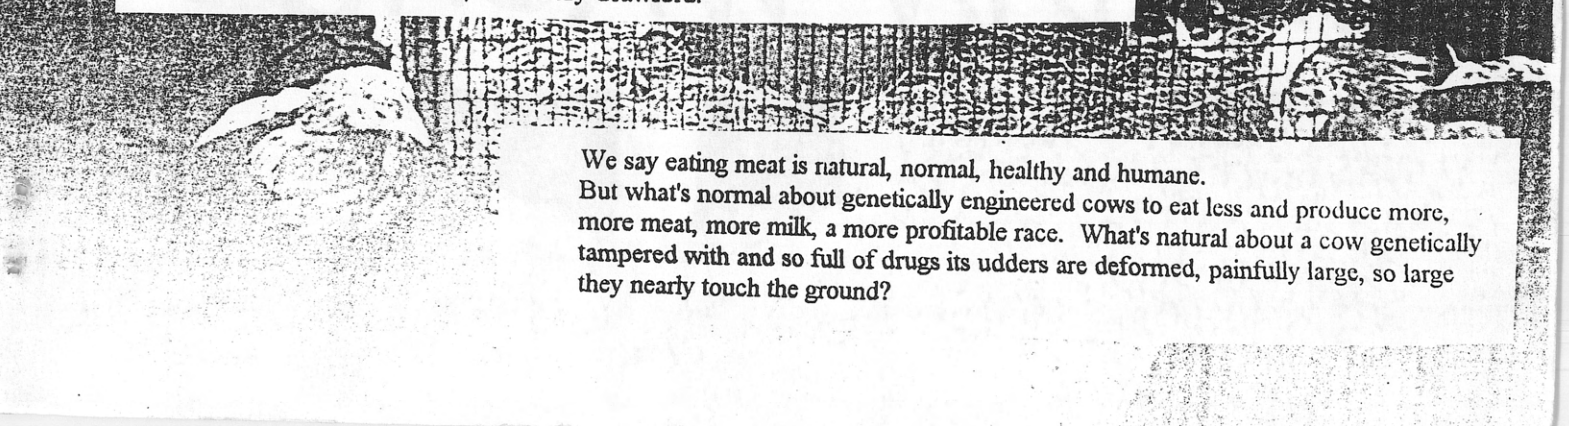


On some French territorial islands, the people eat their dogs. Most French citizens disapprove, yet they eat their horses - 350 000 a year in Italy, then 300 000 in France, Belgium, Holland. Most Australian citizens would disapprove, yet how is eating one animal different from another? Who decides which animals will be pets, and which will be dinner? Skippy is the bush kangaroo to some, bush tucker to others. In Europe, the horses eaten are mainly old racehorses, or club horses that aren't fast enough or have health problems. *This is normal?*

Animals are prisoners in a world where man is king. But are animals fit for the king to eat?
If the animals are so sick, so in need of drugs to keep them alive and make them edible to man, does that not make them less edible? Why would you want to eat something pumped full of drugs as all the animals are? One farmer says white veal can rarely be produced without the use of steroids on the calfs.
Cutting the fat off the edges of the meat is not enough. It's all through the meat. We're eating twice as much meat as we did in 1930. One doctor says the increase in cancer due to overconsumption of meat is the most deadly type of cancer - cancer of the breast, prostate, and intestine. The Japanese eat American beef because they barter with them. While eating soya beans and fish, they never had cancers of these types. Now they do. *This is healthy?*



In Australia, we have more room, so many of our animals are bred outside. But the farmers would have to be blinded by the dust kicked up by their cattle not to see that the animals hooves do ruin the land. Steve Parish travels Australia taking photos for postcards and books. He says the top soil is being destroyed by having so many cattle - he's seen the change over the last 10 years. The only answer is to eat less meat, or be vegetarian. And vegetarians are *not* malnourished, long leg-and-underarm-haired, hippies and radicals. They are normal people, like you and me. They are celebrities, like Madonna, Kate Bush, and Cindy Crawford.



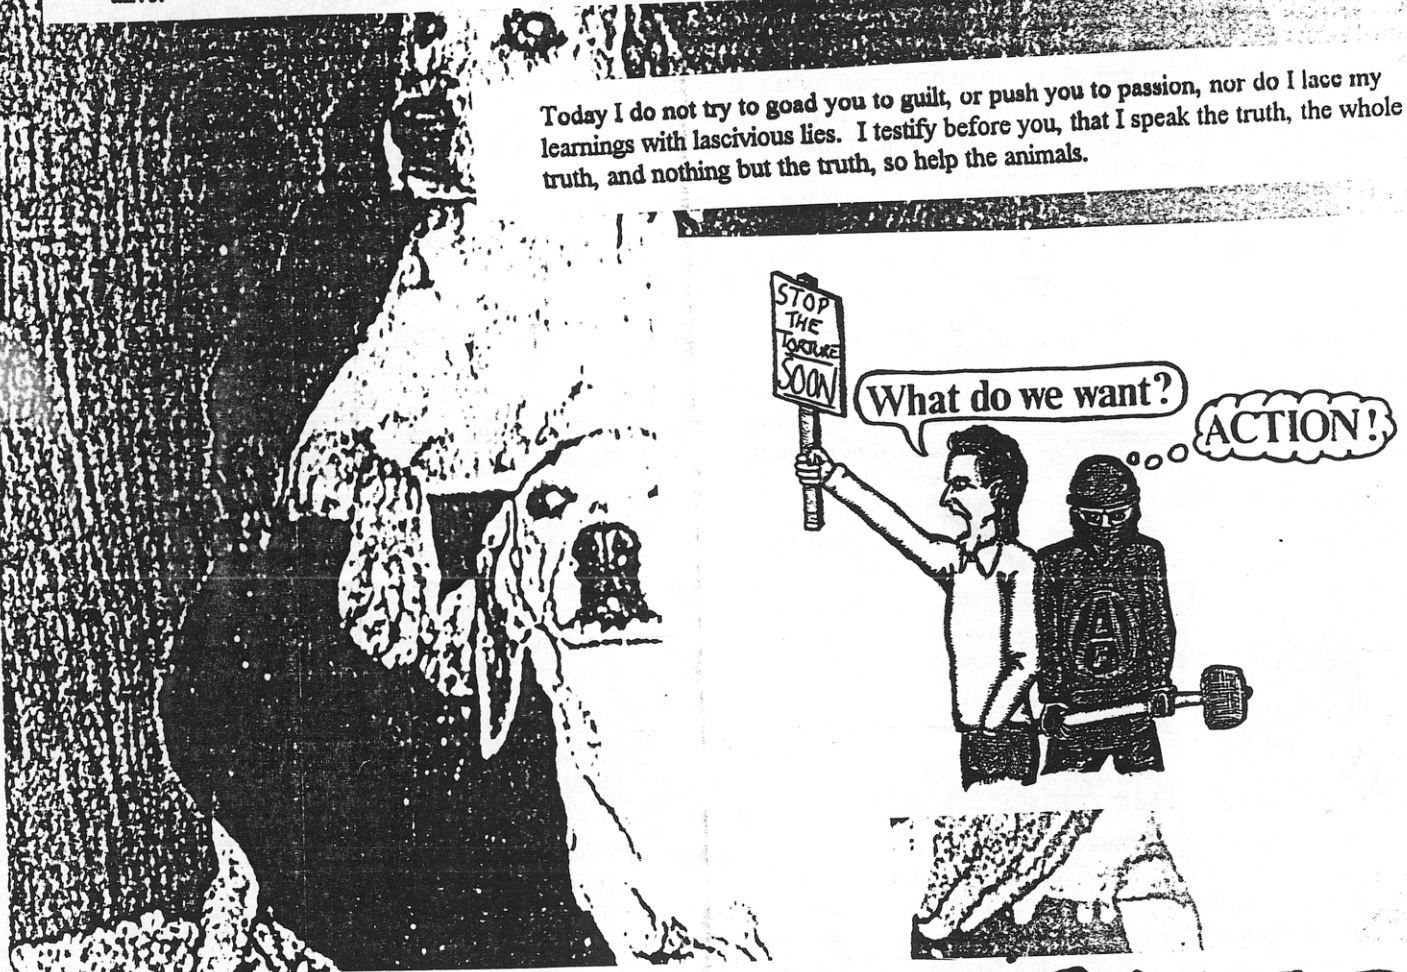
We say eating meat is natural, normal, healthy and humane.
But what's normal about genetically engineered cows to eat less and produce more, more meat, more milk, a more profitable race. What's natural about a cow genetically tampered with and so full of drugs its udders are deformed, painfully large, so large they nearly touch the ground?

What's healthy about eating chickens and pigs and calves fed on, *bred on* drugs and hormones? What's humane about denying animals the basic rights of life - fresh air, sunlight, to be able to walk.

Perhaps you're thinking, but there's alot of suffering in the world that has to do with humans - with men, women and children. Perhaps you're asking, why aren't we concerned with this suffering before that of the animals? Brigitte Bardot, whose foundation works for animal rights, answers this. She says, 'There is no law that stops war, famine, sickness. If I could stop these things, I would. Laws for animals can be passed.'

The suffering that happens to animals before death is unnecessary and inhumane. Whether you be a no-meat-eater, a no-red-meat-eater, or a noted meat-eater, you can still protest against the treatment of animals. If a cow could speak to you, would you still eat her? If you believe eating meat is your right, believe too in the animal's rights. A meat eating animal liberationist is not a contradiction in terms. Animals are dying to be our dinner - there's no reason why we can't respect and care for them while they're alive.

Today I do not try to goad you to guilt, or push you to passion, nor do I lace my learnings with lascivious lies. I testify before you, that I speak the truth, the whole truth, and nothing but the truth, so help the animals.



HUMAN WRONGS

RESIST

THIS INTERVIEW IS A GOD SEND, IT WAS ORIGINALLY TO BE PRINTED IN "DO YOU REALLY CARE" ZINE, HOWEVER IT SEEMS THAT IT'S FOLDED,SO SONNY SENT IT UP TO ME.SO ON WITH THE INTERVIEW.

F.B-When and why did RESIST begin its life?

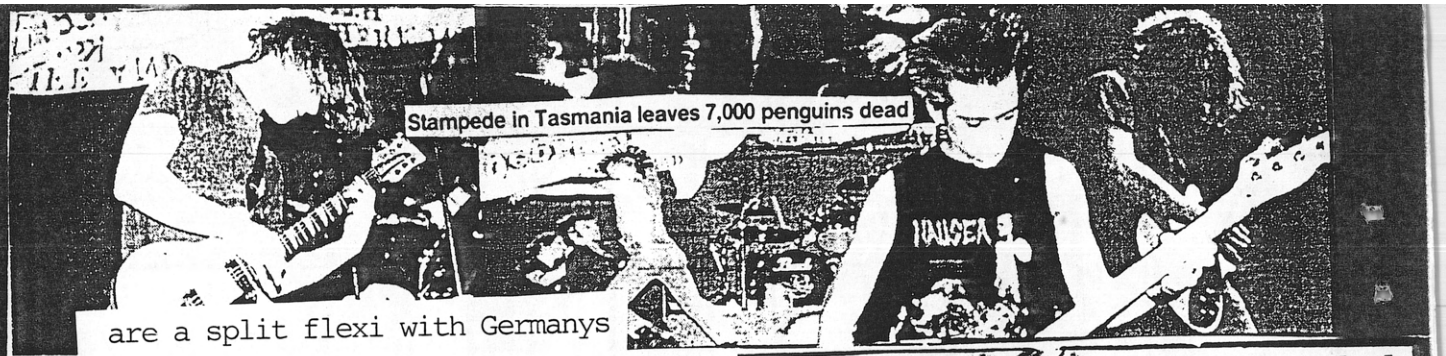
RES-RESIST began in the Spring of 1989,as areaction to what was at the time(and still is,to some extent) a very stagnant scene.Most of the bands in Portland were shitty funk/dru -nk rock bands or lame SUB-POP clone bands,so we decided that being in a band that play -ed a more traditional style of Hardcore,along with lyrics that actually meant something was the thing to do.

F.B-Who is in the current line-up OF RESIST ?

RES-The current lineup is me(Kelly) on bass,Ward playing guitar,Ty banging the skins.We really don't have a singer right now as we just parted ways with Tony (formerly DEPRIVED)as a result of a multitude of problems.

F.B-What releases do RESIST have to date ? Are they still available? Where can they be obtained ? And are there any plans to release anything in the future ?

RES-So far ,we've releaesed 2 full length EP's,2 split EP's(one with DISRUPT and the other with DEPRIVED),an LP,two demos,a live tape recorded on our European tour,a Polish release tape wh -ich combines our Euro-live stuff with our first demo,(one of our 2 full length EP's is also a Polish release with tracks from the two splits plus a live track) On the horizon



are a split flexi with Germanys Cluster Bomb Unit,a 30+ song CD released in the Czech Rep. containing all the demos,live tape,1st LP,splits,and our 1st 7",and on the way from Profane Existance is a new LP.

F.B-You recently released a split EP with DEPRIVED,how did this come about ? Were you pleased with the final product ? What has the res -ponse been like to the EP so far?

RES-The split was an idea that had been floating around for years,since both bands come from the same roots and have sharing members since the beginning.Profane had started developing an interest in the Portland scene,so they offered to put it out.The response has been great.

THINK AGAIN
Say you're proud of the United States?
Say you're proud of the white race?
Say you'd rather be dead than red?
I say you're fucked in the head!
Claim you're anti-racist,
What a bunch of shit
Call yourself a skinhead,
You're a hypocrite
I don't think you understand,
Maybe you should think again!
Are you proud to be a fascist
Tell me man, what kind of pride is that?
Are you proud to be a racist?
It's your turn to lose, so think again!
Proud to be American–fuck you!
Proud to be a racist–fuck you!
The meanest boots you've ever seen!
WORKING CLASS RIP OFF

F.B-Would you agree that your lyrics are fairly political in cotent? What's the reason if any for this? Who writes RESIST'S lyrics ?

RES-I guess you could say that RESIST'S lyrics were mainly written by our old singer TOM,and i wrote a few. Our new stuff when Tony was inthe band was mainly written by he & I.

We feel there are more import -ant things to sing about than beer and sex,but I don't think political lyrics are the only way a band can convey a legitimate message. It's just that,personally,my life is pretty much based around "polit -ical"(I hate that word-it conjures up images of P.C. yuppies and uptight thought police....) Expression and an active resistence to this system that dictates a life of living death,that my lyrics are one of the ways i can try to put forth what I feel is a message I can totally stand behind.

F.B-Do any members work &what are your views about the whole work system in society ?

RES-We all work,unfortunately, although I only work a few hou -rs a day.I work at an applian -ce parts warehouse,Ward works at a ceramic factory,and Ty works as a vetrinarians assistant.We all hate work,but recognize it as an unfortunate necessity in this society,if we want a place to live and to be able to eat, buy records,musical equipment, etc.

F.B-On a lighter note now,are any of the band vegetarians or vegans ? If so what prompted such a dramatic change in diet ? Would you ever consider eating meat again ?

RES-We're all vegetarians,Iwas a vegan up until a couple of mon -ths ago,I only started eating dairy again because i live in a house full of CRAZY ANARCHO-THIEVES,and we steal tons of food,some of it being dairy products,and my motto is "IF IT'S FREE ,IT'S VEGAN!!" Of course I'm always countered with "Well if i go steal you a steak,will you eat it?" NO!! Eating dairy products won't ma -ke me physically ill,where as meat will.

I can't see myself ever ea -ting meat again,and I fully

F.B-What if any,are your views on the recent U.S. bombing of Iraq in retaliation for a failed plot to kill ex-president BUSH ?

RES-Utter and complete BULLSHIT!!! For one thing they should have taken BUSH out when they had a chance! I'm sickened by the air raid,but not suprised in the least.The U.S. is just keeping up it's tradition of imperialist, racistviolence.

GOD BLESS AMERIKKKA.....

intend to go vegan again very soon.To suppport the DEATH/ ANIMAL exploitation industry is fucking shit,even if you don't care about the animals.The enviromental devastation and third world genocide directly caused by the meat industry is on a staggering level,and to stop supporting this is one of the easiest yet hugely effective way to effect change.

F.B-To conclude is there anything you'd like to add that you think I should have covered ?

RES-Just thanks for the interview, keep up the good work!!!

F.B-What are some of your favourite bands/music other than punk/HC bands ?

RES-Ilisten to a lot of non-PUNK/ HC music,like reggae,bluebeat, ska,etc,in addiction to the old blues gods like J.L HOOKER,ROB _ERT JOHNSON,etc....I also dig old country like JOHNNY CASH, WILLIE NELSON (GOD) and HANK WILLIAMS SNR.Also rockabilly, folk music like JOHN FAHEY,old rock like the BIRDS,DOORS,JEFF _ERSON AIRLANE,and all the rest In short I love nearly everything from great classical music(SYM -PHONIC,SOLO or CHAMBER!!) to totally raging brutal DEATH METAL,and everything in between.

Sea Shepherd

WHILE THE OTHERS TALK,

SEA SHEPHERD ACTS.

When a director for GREENPEACE is told by others that they can't support his actions in saving a baby seal from the sealers cub, because his actions are too violent, what does he do?

In the case of Capt. Paul Watson, he turned his back on an organisation he could no long relate to, and decided to form a group of concerned individuals that believed in non-bureaucratic, non-violent, Ghandian-principled direct action group that would fight for the the uncondictional preservation of marine mammals and wildlife.

While on a GREENPEACE action to save baby seals in 1976, Capt Paul Watson (then a GREENPEACE director) saw a sealer running towards a seal, club raised ready to strike the defense -less animal as it lay on the ice. Seeing this Paul ran towards the helpless seal cub, getting himself between the sealer &the cub. As the sealer swung, Paul managed to grab his arm, throwing him off balance. Resulting in him falling to the ice, and dropping his club.

With this Paul grabbed the sealers club and tossed it into the water, lifted up the seal cub and ran towards safety.

After this action, Paul was app -roached by fellow GREENPEACE direct -ors and members that witnessed his non-selfish rescue. They told him that by physically grabbing the seal -er, then in turn trowing his club away that her had acted violently, and destroyed somebodies property.

Capt. Paul Watson, a man that had just risked his own safety in order to save one of mother natures children, was then asked to resign as adirector of GREENPEACE, and to become an active member.

For somebody that had risked his own wellbeing, then to be treated as a thug by an organisation that he had dedicated his life to, this annoyed him so much that he turned his back on the so-called protectors of the

SEA SHEPHERD SINKS NORWEGIAN PIRATE WHALER

1986 sees Sea Shepherd doing what it does best,reeking havoc on peop -le and countries that par take in whaling In this year they attack t the Icelandic whaling industry no holds barred,two illegal whaling ships are sunk anda modern whaling station is destroyed.

Iceland refuses to prosecute Sea Shepherd,resulting in another victory.

1987,Captain Watson and fell -ow activists aboard the conserva -tion ship "The Devine Wine",confr -ont the Japanese drift net fleet in the northern Pacific Ocean.And expose the truth of drift net fishing.The Japanese fleet decides under the pressure to pack up two months earlier than schedule,and runs for safe ports.Sea Shepherd undoubtedly help save 1000's of ocean going mammals and countless sea birds.

1988 sees Sea Shepherd in the thick of things yet again,this time Sea Shepherd agents go undercover and secretly film the mass slaught -er of dolphins by Tuna fishermen, off the Easter Tropical Pacific. The much talked about Tuna/Dolphin connection surfaces for the first time.Resulting in the start of the international Tuna Boycott.

1989,Begins with the flagship,Sea Shepherd 2 being refitted in the U.K. ready for it's journey to the Pacific once more,this time to take on the Pacific Tuna fleet.While on it's mission,no dolphins are killed in the fishing grounds.

"Sea Shepherd 2",returns to Japanese waters in 1990 to confront Japanese "WALL OF DEATH",drift net fleet off the Aleutian Islands. Two Japanese trawlers are rammed by Sea Shepherd,disabling their fishing gear.As well as this,two 30 mile drift nets are destroyed.

The damaged ships, together with the rest of the fleet turn tail and run for home again. No charges brought against Sea Shepherd.

Sea Shepherd by the ex Coast -guard cutter "THE EDWARD ABBEY",

1991, Now with two fully function -al ships Sea Shepherd apply the pressu -re.

1993 , Sea Shepherd purchase the newest member of the fleet, "THE RESOLUTION", a former drift net ship. Not a bad deal, a 180 foot ship, bought with a donation of $40,000 worth of Exxon shares, this was poetic justice at it's finest. A ship from the enemy purcased with donated stock from one of the worst transnational oil companies on the planet.

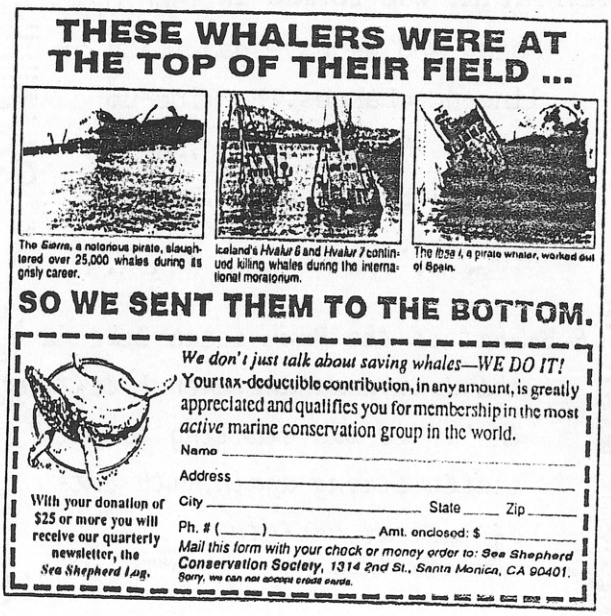
1994, On the 24th of january at 1.45am. Two Sea Shepherd activists, cut the salt water cooling hatch on the Norwegian whaler "THE SENET", before doing this, they padlocked all the doo -rs and left a calling card, to make certain that no-body would be hurt. They were no injuries, and once more another murder ship now rests on the bottom of Greffuik habour.

"THE SENET", was being used illeg -ally to hunt down Minke whales off the south of Norway.

Sea Shepherd have recently set up a contact in Australia. If anyone is interested in knowing more, or would like to become a member of Sea Shepherd then they can do so by filling in the form at the end of this article and sending it with $25 to the Australian address.

ALSO IN THE NOT TO NEAR FUTURE ABLOODY EXCELLANT BOOK CALLED "EARTHFORCE", WILL BE AVAILABLEFOR $20 FROM THE ADDRESS. THE BOOK IS ABOUT DIRECT ACTION STATEGY BASED ON THE VIEWS AND EXPERIENCES OF "SEA SHEPHERD. WRITTEN BY NONE OTHER THAN CAPT. PAUL WATSON.

Unlike a certain other group all money sent goes towards direct actions, not fancy officers, and company cars.



THESE WHALERS WERE AT THE TOP OF THEIR FIELD ...
The Sierra, a notorious pirate, slaughtered over 25,000 whales during its grisly career.
Iceland's Hvalur 6 and Hvalur 7 continued killing whales during the international moratorium.
The Isba I, a pirate whaler, worked out of Spain.
SO WE SENT THEM TO THE BOTTOM.
We don't just talk about saving whales—WE DO IT!

MDM

Busy days for MDM

Back on the road

NME 31·10·93

F.B-Well firstly who's in the band, and how long have you been together?

MDM-M.D.M. was formed in 1986 by Mandy and we have had loads of line-up changes. The line-up now is -Mandy(vocals), Rag (drums), Richie(bass), Rob (guitar).

F.B-What is the Punk scene like in the U.K. nowadays, when I left in '91 it was starting to get really strong again, with lots of musical variety.

MDM-Mandy Alot of the hardcore s/e stuff seems to have died and bands are now verging on the Pop-Punk side ie: alot of the tapes we get sound like the early bands-Ramones, D.Ks, SLF. As for the scene in general, people are getting off their arses and starting to make things happen.

F.B-Are the band into Animal Rights If so what do you think of folk like the A.L.F. & Hunt Sabs ?? And do you think Veganism and Animal Rights are as important as Human Rights ?

MDM-Richie Yeah the band are into Animal rights, we do benefits ie: gigs and tapes and we don't ch -arge expenses for benefit gigs unlike other bands. As for Vega

fairly obvious to the appallingly low turn-out. Bac
'Left To Rot', a thrashy and angry ditty about the a
which the state treats O.A.P's. The set continues wit
gry punk monster music. Last up is M.D.M's propos
Media Say's' - it ain't half bad either.

So, yeah, I liked M.D.M, I liked their 'get up and gi
attitude and their confident/arrogant, yet humerous
band were to play The Haigh the kids may learn th
life than being 'baggy'.
Punk rock - right on.

-nism thats is down to Personal choice,but I do think animal rights are as important as Human rights.

F.B-With the rise of fascism in Europe and the B.N.P. actually winning a seat in Government, do you think we actually have to get more physical than vocal or do you see groups such as the A.N.L. & A.F.A., just leftie trends like in the '70's?

GOOD GRIEF • INFLUX (ex-Flux) • M.D.M.
MAGGOT SLAYER OVERDRIVE • MORTIFIED • BACKBONE
THE OBSCENE FEMALES • OI POLLOI • P.M.I

MDM-Richie We are not really affec -ted by fascism or the B.N.P. as we live in a highly populat -ed ethnic area.As for most of the ANL or AFA once they leave university their daddies will probably buy them the BNP for birthday,yeah most of themare Middle class trendy bastards with nothing better to do.

As for fighting Fascism,yeah we need to get more physical, but it needs to come from the grass roots and not from trendy bastards.

F.B-What do you think of all the so called caring bands selling out ie:Blaggers-EMI,Back to the Planet-Polygram etc?

MDM-Mandy If you can get paid for something you enjoy,and you can get your message across to a wider audience,then this I can understand,but when it's a com -pany that you know is giving money to suspect causes then it's a matter of conscience.

F.B-What does M.D.M. stand for ?

MDM-Mandy MERE DEAD MEN,it comes from Tolkeins "Lord of the Rings".

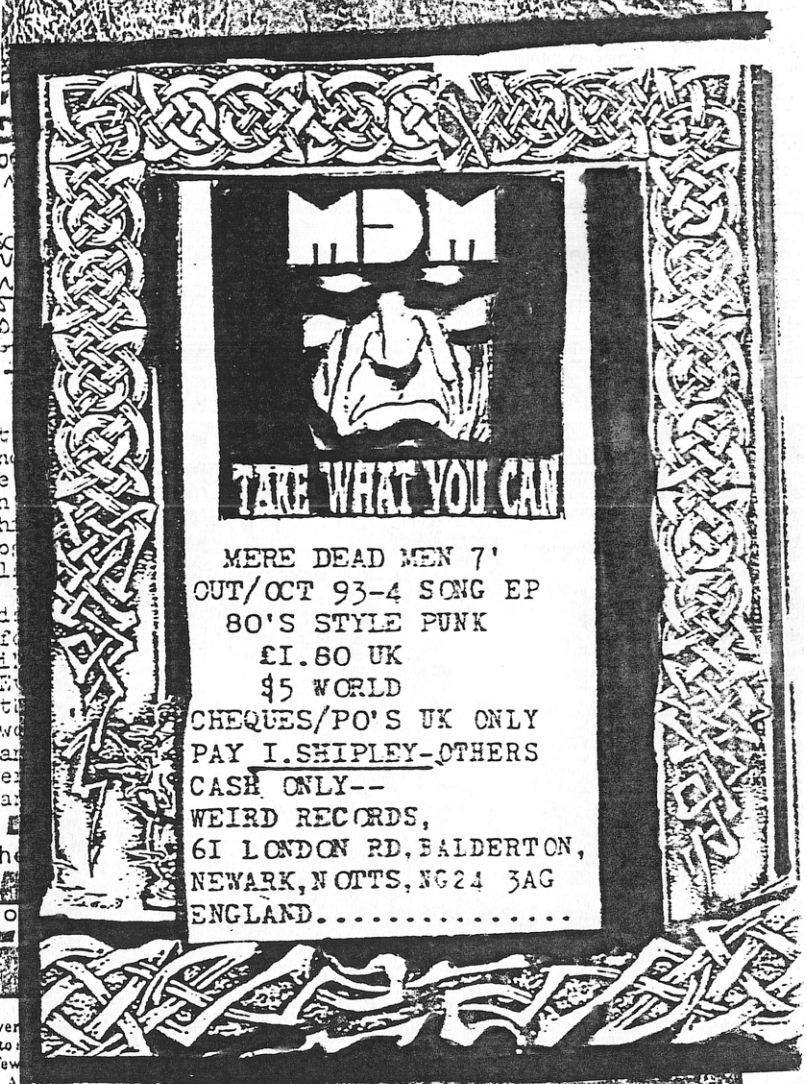
F.B-When recieving the CRASS c
-over version LP a few tracks really blew me away, one was your cover of Big A Little A, how did you get involved with the project ?, and whats the response been to it ?

MDM-Mandy I wrote to chris from C.D.s who put the LP out, originally to get into his zine. With us both being into the Punk scene we became friends and it all came from there.

He put loads of work into it and was fucked about for 18 months or so as some of the bigger bands who promised to do it let him down.

F.B-You've already got one 7" out is their any news of new vinyl releases in the near future ?

MDM-Mandy The 7" isn't the first vinyl we have had, we had a split LP released in 1990, we have a new single out at the end of January, and a possibility of a Spanish release. We also have loads of tapes & T-shirts available.



M.D.M. Live

MDM

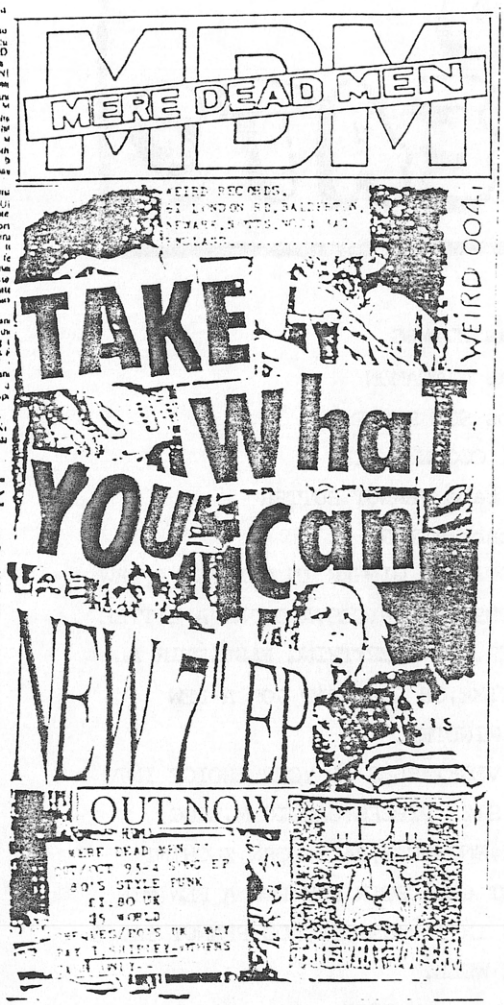
Grunt, grunt, squeel, ANARCHOPUNK ALERT, ANARCHOPUNK ALERT Snork cuffaw cackle, GRUNT GRUNT GRUNT, the sound of a thousand epileptic dogs chasing after a very scared postman. Crasstafarian newpop

F.B-With the Tory Governments crack down on Squatting and Travellers is it getting harder to survive in Majors Britain, and has homelessness levels risen ?

MDM-Richie Most of the so called squatters &travellers we know have no need to live like that and lets be honest most of them only do it at weekends any other time it's back to Mummy & Daddy and their dole cheque. As for the genuine homeless, yes it has increased and it's a fucken DISGRACE!!!!!!

MDM...NEWS LETTER

Busy days for MDM!! Back on [illegible]



died at the end of the 80's but there is now new inte-rest in the old bands ie: Crass and Conflict.

F.B-Well thats about all other than a big thanx to the lovely folk in M.D.M., and is there anything you'd like to add ?

MDM-Richie Cheers to Andrew for the interview and cheers to all th-ose who have stood by M.D.M. Also if we have offended anyone TOUGH, we answer the questions honestly and not just to please the right on mob. If anyone wants to write, please do but include an I.R.C. ta.

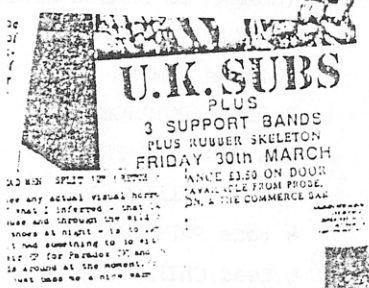
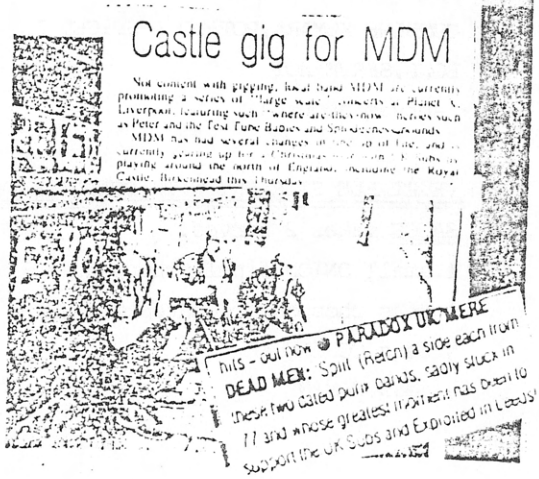
F.B-What inspired you personally to get involved in the Punk commu-nity, & is Anarcho punk still big in Britain ?

MDM-Mandy When it exploded in '77 we were all kids in school, and there was just this feeling th-at we could all do it. We could dress how we liked and could say what we liked. Unlike today there were no rules, and gradua-lly it became a way of life.

The Anarcho-Punk scene





So, yeah, I liked M.D.M, I liked their 'get up and give 'em hell' rocking attitude and their confident/arrogant, yet humerous outlook. If this band were to play The Haigh the kids may learn that there is more to life than being 'baggy'.
Punk rock - right on.

Animal Liberation Front

Well its been a few issues since we've featured any animal liberation info, so I've decided to give a brief run-down of whats been happening worldwide of late.

**A Swedish animal rights group callin -g themselves DJURENS HAMNERS (Anima -ls Avengers) was created around the middle of 1993.On May 31st seven fue shops in Stockholm were repainted,in June another fur shop & the L'Oreal shops were repainted.

In August butcher shops were spray painted and had their windows smashed.

On Anti-Macdonalds day in October posters were superglued to MacDonalds windows.

On November the 8th the group libe rated it's first animals,9 guinea pi -gs and 2 rabbits were taken from an animal breeders just outside of Stockholm.

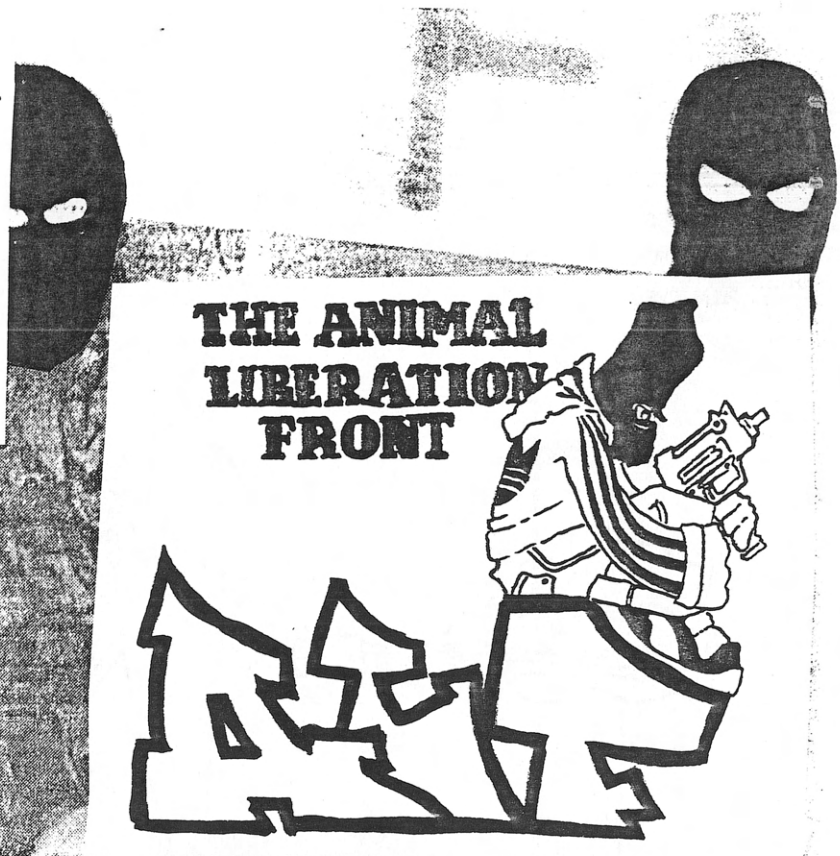
**In the middle of November,DJURENS BEFRIELSE FRONTS (Swedish ALF) press officer Emilie E:son stood trial on charges of "Slight assault and battery".

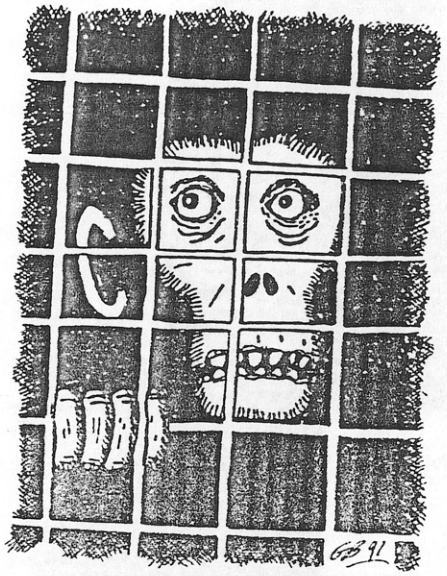
The incident stems from the beginning of March when ALF members entered Swedens largest breeder of dogs for vivisection owned by Astra & Kabi Phamacia. Who breed in excess of 600 dogs a year.

The raid was originally just going to be a photo run to expose the bastards,however a fight broke out between ALF activists and staff of the company.Ms Bente Nielsen took the press officers camera and tried to expose the film,with this she was punched in the face,and in the hand, However she managed to expose the fi -lm.

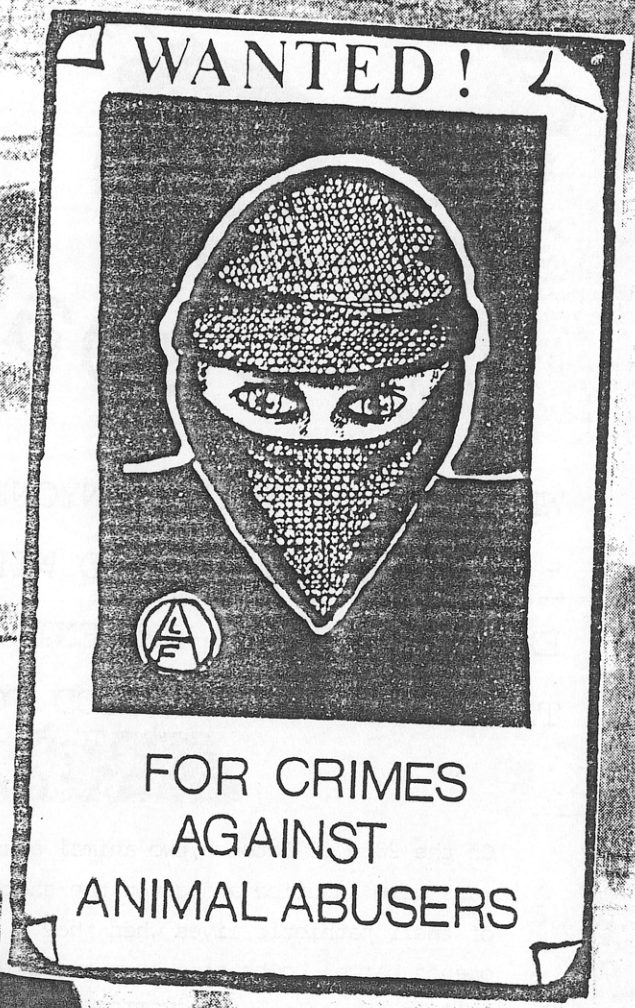
Emilie was found guilty after jus -t two hours and fined $170.

**On the 4th of December windows (2) were temporily removed from MacDonal -ds in Belfast,as well as them having their locks glued,this was pa -rt of a campaign against the local burger stores competition to see how many burgers they could sell in two hours.The ALF activists also warned the Big Mac not to open any more shops in the area.





LIBERATE!



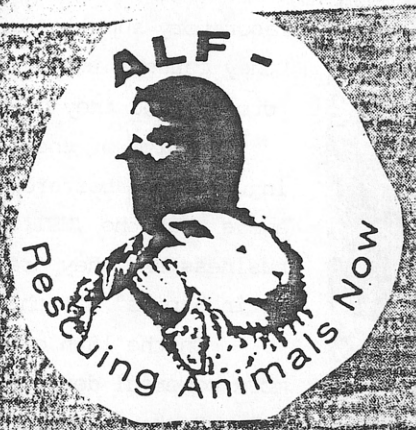
**In the early hours of November 27, saw MacDonalds of Barrow-in-Furness, Cumbria,England,lose windows worth 1250 pounds (about $2,700,thats what I call fun) during an attack by an ALF cell,at the other end ofCumbria on the 29th of December three windows were removed from a Boots chemist and a MacDonalds in Carlisle.

**Helen Steel was sentence to 28 days gaol for refusing to accept a bindov -er at the beginning of December.

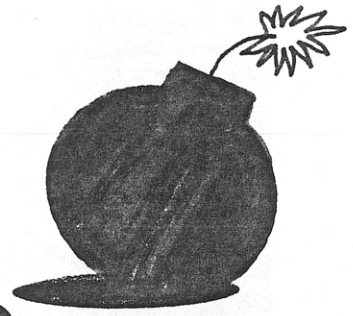
She was released on the 15th of that month.

Her offence was walking too clo -se to a Grouse shooter while sabbing a Grouse shoot in North Yorkshire,

She also recieved a 70 pound fine and made to pay 350 pounds costs Helen is one of the McLibel 2.....



Justice Department



WE WON'T BE ASKING ANYONE TO STOP MESS -ING WITH ANIMALS AND WILL MAKE NO EXCUSES FOR OUR VIOLENT INTERVENTION- THEY'VE HAD IT TO GOOD FOR TOO LONG.

On the 28th of October,two animal abus -ers were injuried and given the shock of their pathietic lives when they opened parcel-bombs sent by a group calling themselves the"JUSTICE DEPARTM _ENT".

The JUSTICE DEPARTMENT,never had to explain why the two-Colin French,farm animal abuser,and Christopher Brown, laboratory supplier of cats,they claim "they cause animals to suffer great cruelty,and they deserve it."

In spite of their ralatively minor injuries the bastards are now very aware that the JUSTICE DEPARTMENT means business and they are not being used as "guinea pigs" for the groups devices.

On the 15th of November two much more powerful devices were sent off to Arlin Rickard (public relations officer for the BFSS),AND George Murray (master of the Cheshire Beagles).Unfortunately both devices were defused by the bomb disposal unit.

November 24th saw yet another bomb being sent to Swalesmoor Mink farm,near Halifax in Yorkshire,this to was made safe by the bomb squad.

The next Tuesday,30th November, a similar bomb turned up at the home of Haydon Noble of Noble Furs,Regent ST,London.T his one however went off. Witnesses later said they saw Noble leaving hospital with heavily bandaged hands.(serves him bloody right)

The JUSTICE DEPARTMENTS next devi -ces were sent on the 21st and 22nd of December,this time all aimed at those that are connected to vivesection.

These devices were different from the first ones,this time they were hou -sed in 2 foot tubes,each containing 6

Athird device was then made this time a powerful incendiary,these were used as a part of a campaign against BOOTS chemist stores.

The first one went off in North -ampton on the 24th of December setting off the sprinkler system and floodind the store

hypodermic needles packed with explosi -ve materials.The reason they decided to use this kind of device was that the JUSTICE DEPARTMENT claims,"that although the needles were clean,AIDS was created in alaboratory and those that are invo -lved in vivisection should pay with w -hat they have created."To even further press their point the JUSTICE DEPARTMENT stole some infected blood just to show how easy it would be to carry the thre -at out.

After a couple of more devices were fo -und in Boots stores,Boots are reported to have checked all of their 1,100 sto -res and stepped up security.

The last that I've heard about the JUSTICE DEPARTMENT was a communique sent to the A.L.F. press office in London that said,"IT HASN"T EVEN START -ED YET.NOW IS THE TIME TO GIVE THEM EVERYTHING YOU'VE GOT."

Two of the devives are known to have exploded at there targets,one for Peter Savage at Vet Diagnostics,which injuried four people,the other at the home of Terry Hornett,manager of GLAXO's breeding centre.Terry Hornett is also council member of the Institute of ANIMAL TECHNICIANS,and member of the RSPCA's animal experimentation advisory body.

The remaining devices were sent to Mark Matfield of research Defance Society,Edwin Sutton of Hyline Rabbits, W.H. Mellor of H.G.Rabbitry,Harlan Porcellus who breeds guinea pigs,E.D.S who publish a directory of animal suppliers,Louise Phillips of Selbourne Biological Services who supply cattle, sheep and "animal equipment',Chas Gentry who breeds beagles,Phil Ruddock who is a feed supplier,and two others, all these devices were made safe.

NO MORE TORTURE NO MORE LIES.

Judge people on their deeds.Their words are no more then hot air.

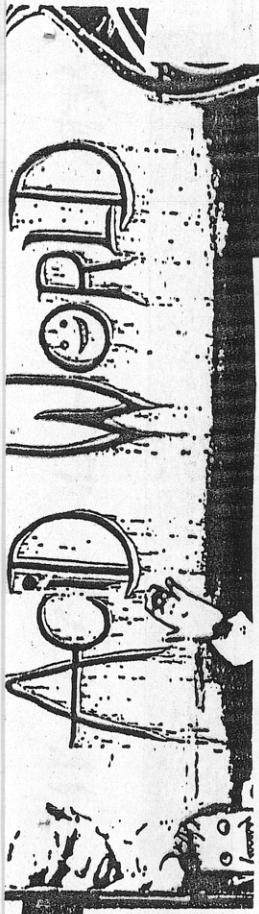
TAKING NO SHIT IN BRISBANE WITH SHANE SPASM..

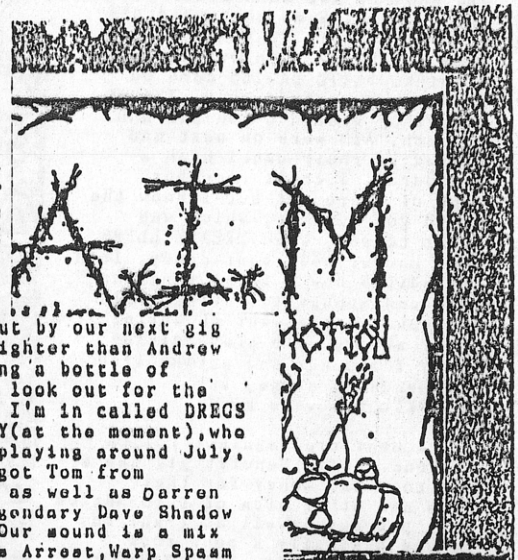
ISSUE - THREE FREE IN BRISBANE CITY DECEMBER - 1993

Hello, well it's been a long time since my last scene report and a lots happened in Brissie. I just hope I can remember it all.

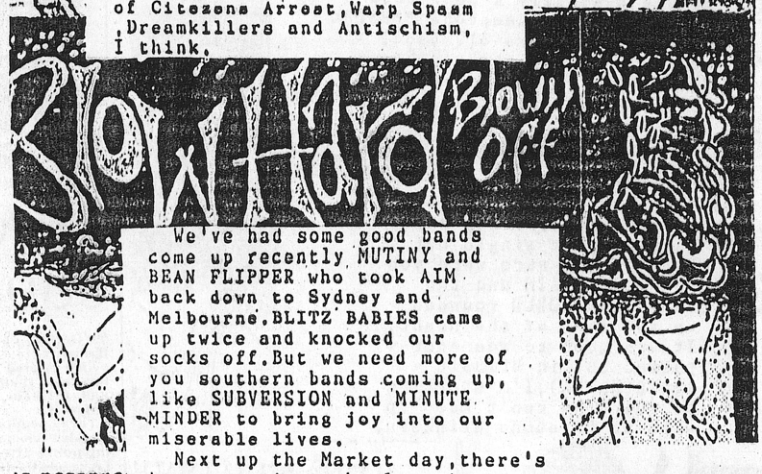
DREAMKILLERS have released their 3rd CD, "Fairgrounds For Insanity" a long time ago,They are in the studio again recording another CD due out near the end of the year.Thet're also recording a single thingy that will be out around the middle of the year.AIM are finally putting out a new tape,which should be out by the time you read this.It's self titled and has most of their newish songs on it.They also have a split 7"out with the now defunct PITCHFORK,on SPLURT Records entitled"I could have been a cop.AIM now have a second guitarist I've forgotten his name(sorry sorry)but I know he played in BLOT with BEN.BLOWHARD have been touring down south since the last report,and will be releasing a new CD single called"SNAG"on the 29th April.It's got 3 new songs and 2 oldies but goodies"Pastor Camp"and "My Green World".

Next up,some new bands in Brissie.BONER are a three piece punk rock covers band. They do some songs by BLACK FLAG,MINOR THREAT and others from that era.Ben from AIM plays guitar and sings,as well as two menbers from BLOWHARD.





up a bit,but by our next gig we'll be tighter than Andrew Dove holding a bottle of cider,Also look out for the other band I'm in called DREGS OF HUMANITY(at the moment),who should be playing around July. It's also got Tom from INEBRIATED as well as Darren and the legendary Dave Shadow on vocals.Our sound is a mix of Citezens Arrest,Warp Spasm ,Dreamkillers and Antischism, I think.



We've had some good bands come up recently.MUTINY and BEAN FLIPPER who took AIM back down to Sydney and Melbourne.BLITZ BABIES came up twice and knocked our socks off.But we need more of you southern bands coming up, like SUBVERSION and MINUTE MINDER to bring joy into our miserable lives.

Next up the Market day,there's been two since the last issue of Fight Back.The first one was in october at Albert park.As usual there was a large variety of bands playing to cater for everyone's taste.The harder bands start playing around 5 in the afternoon and thats when the fun starts.Massappeal were the first decent band to play, their sound has changed alot over the years and although they were good,they lost my interest midway threw the set.

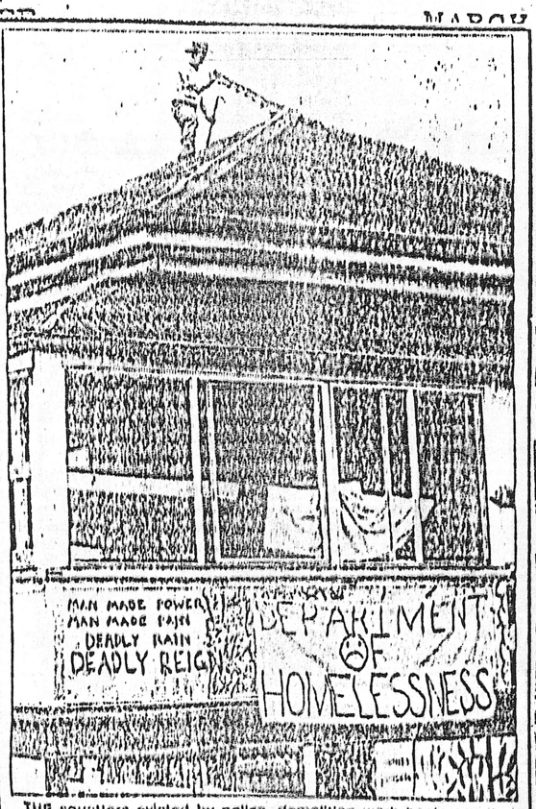
They've only played once so far but I hope to see them next time they play.Now comes INEBRIATED who would have to be Brissies first crust band if not Australias.Menbers are Garth jnr and Andrew singing (grunting) Garth Anonymous on bass,Tom on drums and yours truly on guitar.We played our first gig on the 10th of April in a squat in West End.As to be expected we all stuffed

ACID WORLD were on soon after and played a great set.It was during their set that some nazi skinheads started causing trouble,punching and kicking people,me and Tandara included. The rest of the night was spent confronting the nazi's, some people got hurt pretty badly. It's pretty pathetic how out of the thousands of people there, only a small group (mostly punks) had guts to stand up to them, while the rest of the masses numbed their minds to the music. So the boneheads ruined a good day out. If everyone had pulled together it would have been a different story.

PARTIAL ARREST

March, and another market day this time delayed by two weeks 'cause of all the wet weather. I thought I was living in Melbourne for a while there. Rumours abound that the skinheads were going to cause trouble and try to wreck the day. But in the end nothing happened, I didn't even see them there. Apparently some did show up but left after a short while. Some bands did play as well, namely GRAVELRASH, who play in the L7 vein but better I think, BLITZ BABIES came on and blew our minds away. I just wish they wouldn't ooh and ahh so much. AIM were on next and played to their usual high standards. I can't remember much of there set but I know the crowd got into it, which was great to see. When DREAMKILLERS came onoverybody went crazy. It's incredible how a local band can get such a huge following. Well the usual thing went on during their set, people stage diving every 2 seconds and acting like dickheads on stage, but DREAMKILLERS were good.

The Coalition against Police Violence had a benefit gig age's ago to raise money for their zine and other bits of information they put out,aswell as t-shirts. It was basically a punk rock night with Rockhamptons BERSERK SURGEONS(Heathers old band) coming down for the gig.The ONYA'S played their brand of yob core punk rock,and are



The squatters evicted by police, demolition work begins on the West End house yesterday.

Three arrested as squatters evicted

TWO girls chained themselves to doors as police evicted squatters from their West End, Brisbane, home yesterday.

Three people were arrested for obstructing police after they broke into the Housing Department Drake St house about 8.15am to evict the squatters.

The department threatened the squatters with eviction last week and a meeting between the department and squatters failed to reach a solution to the problem.

One of the arrested protesters, Allison, 16, chained herself to the front door with a bicycle lock, delaying police more than two hours.

Allison, who would not reveal her surname, said she had no regrets about her stand but was disappointed the squatters were still evicted.

"I'm happy with what I did, but I'm not happy with the outcome," she said.

Allison said the squatters had been given no recognition for the community centre they had developed in a warehouse behind the vacant building.

"We were making a huge effort and putting all our resources into the centre," she said.

"There is nothing like this in the community and we tried to provide it for them."

Ayesha Latimer, 17, had chained herself to an interior door.

"They came thundering in doing some Rambo tricks and throwing doors around," she said.

Housing Department general manager Ken Smith said the department had tried to resolve the situation peacefully, but the squatters were breaking the law and had to be evicted.

"We have to be concerned about the safety of the occupants," Mr Smith said.

"The accommodation was illegally occupied and we had to take action."

Squatter James Hope, 20, said they would now just have to start again.

"It's a really futile action," he said.

"I just hate them winning. They've destroyed something that was very good.

"It just means a lot of work for us. We'll have to get it all off the ground again now."

Resident said the squatters had been very good neighbours.

"They've never caused us any trouble," said pensioner James Moore, 68, of West End.

"We were just saying the other day how good they were," he said.

Peter Braun, 40, who lives across the road, said the group seemed a positive addition to the community.

scarting to get alot of respect for it.They also have a split single out but I'm not sure were you can get it.AIM and the late ACID WORLD rounded up the rest of the night. It was good to see Andrew passed out in Brissie again(HA HA),I'm starting to think he can't keep up with us Brisbane drinkers.

A few other things have happened,like a protest march to legalize marijuana,apparently they got 20 thousand signatures on their petition which they took to such a worthy cause.

The squat in west end has been demolished, but it didn't go down without any resistance.There should be an newspaper article around here somewhere,that will give you the general idea of what was happening.

Well that's all for this issue,I'd like to thank Chris from SUBVERSION and the rest of the household for letting us stay there in January.And also Tandara for the use of this type writer,and for doing some typing and paying me out along the way.

THANKS
SHANE

AUSTRALIA'S NUCLEAR CONNECTIONS:

URANIUM, REACTORS, FACILITIES, BASES

Australia has been and still is implicated in the nuclear arms race. Through its uranium mining it continues to fuel the nuclear arsenals. By exporting to non-nuclear-weapons countries it contributes to the problem of "horizontal proliferation". The uranium fuels an industry whose components are "attractive" targets in a nuclear war. A detailed study in the US concludes that targeting parts of the commercial nuclear fuel cycle would increase radiation fallout 10 to 50 times than would otherwise occur. There is the strong possibility that waste from commercial nuclear reactors will be reprocessed to extract the plutonium for nuclear warheads in both nuclear and non-nuclear armed countries. Australia is further implicated in the nuclear arms race through its hosting of foreign military bases and facilities. This map attempts to show where uranium occurs and where nuclear related facilities are located, along with their function, in Australia. A brief explanation below attempts to describe the intelligence cooperation Australia has with the United States—crucial intelligence for a country prepared to wage nuclear war. . . at a moment's notice.

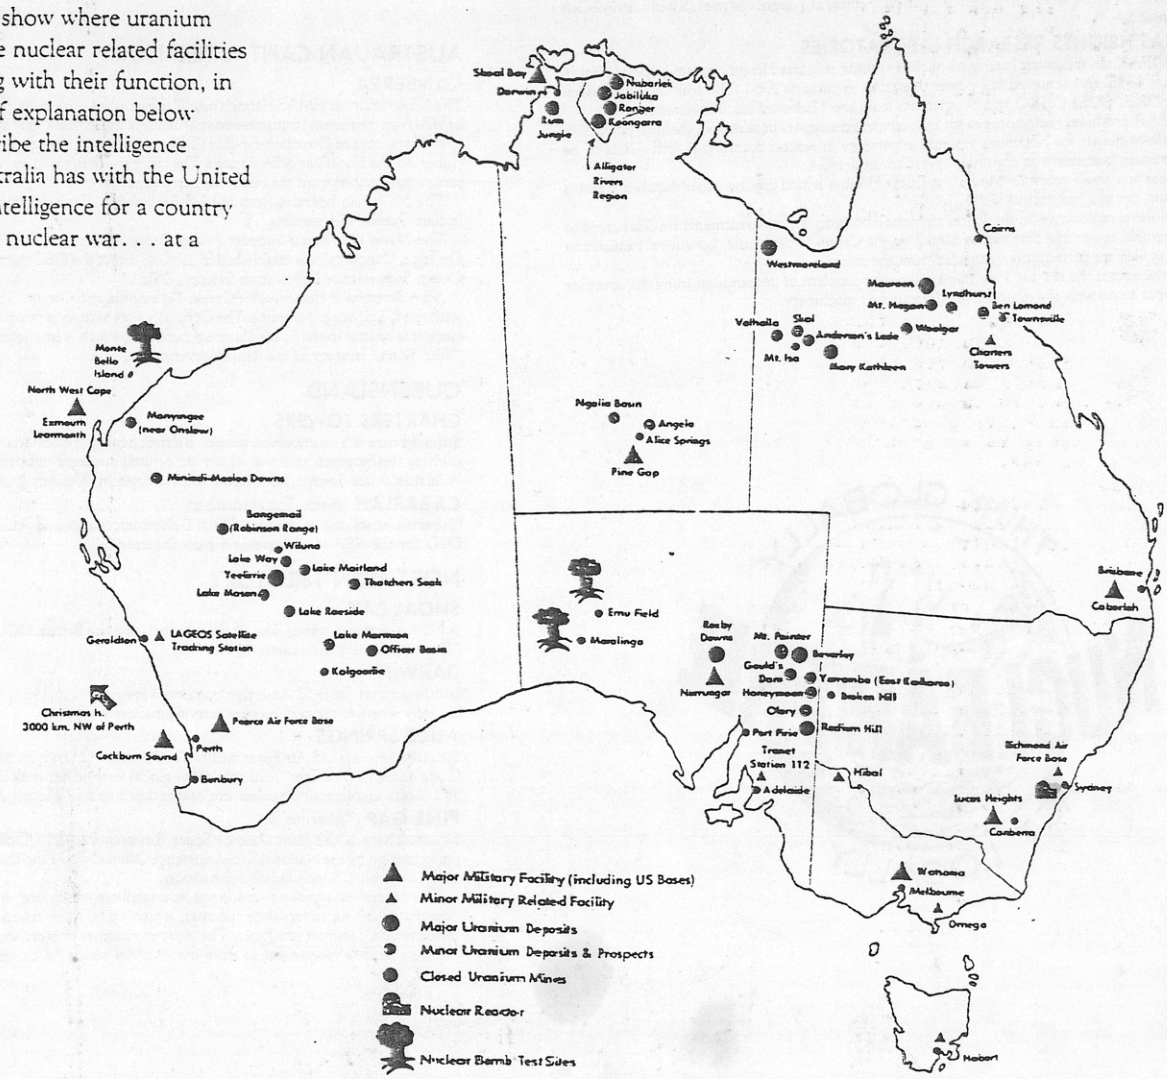
URANIUM

Uranium was first discovered in 1906 at Radium Hill, South Australia. A second deposit was found in 1910 at Mt. Painter. Both deposits were mined before World War II for their radium. Radium Hill was reopened and, along with Rum Jungle in the Northern Territory, was mined for uranium to fuel the American and British nuclear bomb projects after World War II until the early 1960s. A plant at Port Pirie refined the ore from Radium Hill leaving to this day radioactive tailings out in the open. Another early mine, Mary Kathleen opened in 1958 and then closed in 1963 due to a depressed market. It was recommenced in 1974 and finally closed in 1982. Yellowcake from Mary Kathleen continued to be exported to the US and Japan in 1984.

In 1984 there were over 50 locations of uranium deposits in Australia that were publicly gazetted. Two of these were in commercial production—Ranger and Nabarlek. Together they produced 3 per cent of the non-communist world's supply of yellowcake in 1983. Of the 125,000 tonnes at Ranger 46,558 tonnes have been sold under contract to Sweden, Japan, Belgium, Korea, USA, West Germany and of the 12,000 tonnes stockpile at Nabarlek 9,870 tonnes sold to Japan, Finland and France.

Between the late 1960s and mid 1970s exploration for uranium in Australia came across some very large deposits. Included in these were three large deposits of Jabiluka, Ranger and Koongarra and the rich, although small deposit at Nabarlek within an area known as the Alligator Rivers Region. Discoveries were also made in Western Australia, in particular a large one at Yeelirrie and in 1975 possibly the largest single known deposit in the world at Roxby Downs in South Australia, 520 kilometres north north west of Adelaide. The ore body contains an estimated 1.2 million tonnes of yellowcake. Although this uranium oxide is only 0.06 to 0.08 per cent of the ore, the vast size and other minerals present (30 million tonnes of copper, 1000 tonnes of gold, 7000 tonnes of silver) improves the chance of economic development. A larger ore body of yellowcake exists in the Maureen area of north east Queensland (290 kilometres south west of Cairns). There is a proved 1,650,330 tonnes of Uranium Oxide (yellowcake) at 0.153 per cent (approximately twice as rich as Roxby Downs) but not with other minerals sufficiently present to consider mining yet.

Australia, which has about 30 per cent of the West's total uranium reserves, is sixth in a list of producers after Canada, USA, South Africa, Niger and Namibia. The wealth to be earned from uranium is overestimated, and market conditions, including competition from nuclear power utilities trying to offload their stockpiles, suggest a continuing low for yellowcake prices for the next decade at least.



DEFENCE SIGNALS DIRECTORATE (DSD)

The DSD was set up in 1973 as a section of the Department of Defence to participate in the Naval Ocean Surveillance Information System (OSIS) of the US. OSIS monitors Soviet ships and submarines. The DSD headquarters is in Melbourne at Victoria Barracks. There are 10 or so NSA officers stationed at the DSD headquarters. DSD stations are at Pearce (WA); Cabarlah (Qld.); Shoal Bay (NT); HMAS Harman (ACT); two stations at Hong Kong—the Composite Signals Organisation Station at Little Sai Wan on Hong Kong itself, and an outstation at Tai Mo Shan on the New Territories. Another NSA facility which comes under the DSD control is at Tangimoana, 120 kilometres north of Wellington, New Zealand.

AMERICAN NATIONAL SECURITY AGENCY (NSA)

The principal US intelligence agency, the NSA is the largest, most secretive, and most influential of the US intelligence agencies. It was created on November 4, 1952. Headquarters are in Maryland, USA. The NSA is responsible for all the activities associated with Signals Intelligence (SIGINT)—electronic, communications and radar intelligence, electronic counterintelligence and signal security. The NSA operates more than 2000 permanent intercept stations scattered around the world. The NSA has three service components—the US Army Intelligence and Security Command (INSCOM), the US Air Force Electronic Security Command (AFESC) and the Naval Security Group (NSG). The NSG is the component of the NSA under which Australia through the DSD operates the SIGINT stations. This is carried out under the Secret Treaty or the UKUSA Agreement of 1947. It is a tiered treaty under which the USA, the UK, Canada and Australia, the four principal parties, agreed to cooperate in certain intelligence activities. The NSA is called the First Party to the treaty while the others are the Second Parties. NSA defectors and indirect evidence from those still involved have said that the NSA monitor radio transmissions of its partners, including Australia. The DSD is involved in the Ocean Surveillance Information System (OSIS). This monitors all surface shipping and submarines, in particular Soviet shipping. The NSA via the NSG runs the OSIS globally.

VICTORIA

WATSONIA

Situated here, 15 kilometres from the centre of Melbourne, is a 60 foot diameter satellite communications ground terminal which is part of the US Defence Satellite Communications System. Information collected by the NSA stations in Australia, Hong Kong and New Zealand is relayed back to the United States by the DSD via Watsonia (see "Defence Signals Directorate").

OMEGA

Situated near Darriman in south east Victoria is a 427 metre high steel tower, which was paid for the by the US Navy. It is one of eight such facilities around the world. These Omega network stations provide an all-weather, continuous, worldwide, very low frequency (VLF) radio navigation system for aircraft, ships and submarines. Although Omega is utilised by commercial traffic, the US Hunter-Killer submarines make use of the system in their role of protecting the US ballistic missile carrying submarines against the Soviets. The military aircraft which use Omega are part of the US Rapid Deployment Force.

HIBAL

Established in 1960 at Mildura airport to determine the content of radioactive material in the upper atmosphere over Australia due to the nuclear explosions. Balloons still launched are "primarily military in nature".

NEW SOUTH WALES

RICHMOND AIR FORCE BASE

The base, 64 kilometres north west of Sydney operates as a depot for the US Military Air Lift Command.

LUCAS HEIGHTS RESEARCH LABORATORIES

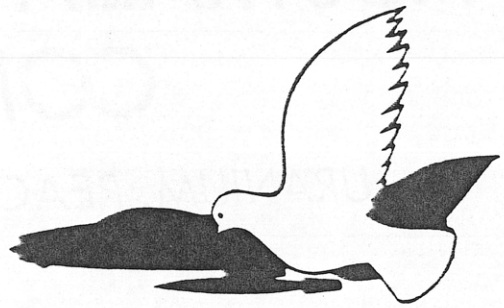
The HIFAR ten megawatt (thermal) nuclear reactor at Lucas Heights became operational in January 1958, and achieved full power operation in January 1960. The reactor is a research facility used by the CSIRO and by scientists from the 17 Australian Universities.

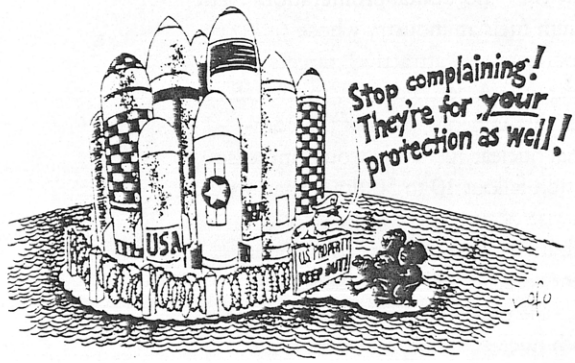
HIFAR produces radioisotopes for industry and medicine. In addition, the nuclear facility provides a means for obtaining practical experience in reactor technology. HIFAR is to be refurbished to enable it to continue operation until 1994.

There is a small reactor, 'Moata', at Lucas Heights which among other functions assays uranium ore and radioactive waste.

Low-level radioactive liquid wastes from the laboratories, after treatment, are discharged to the regional sewer line that has its outfall on the Cronulla peninsula. Low-level radioactive gases as well are periodically ventilated from the stacks.

At the end of the reactor's life there will be the problem of decommissioning the complex and what to do with the radioactive contaminated machinery.





AUSTRALIAN CAPITAL TERRITORY

CANBERRA

The NSA facility at HMAS Harman near Canberra, has as its principal function the monitoring of HF (high frequency) transmissions particularly those being sent to embassies in Canberra. It has only a limited Direction-Finding (DF) capability and hence is not capable as the Pearce, Cabarlah and Shoal Bay NSA stations. The Harman facility is to be replaced by another station somewhat further from the outer Canberra suburbs.

The NSA also operates from the US Embassy in Canberra coordinating the Pacific and Indian Ocean NSA stations.

The Naval Command Support System Project Office (NCSS PO) in the Department of Defence, Canberra, was established in 1980 to direct the DSD participation in the American Ocean Surveillance Information System (OSIS).

NSA Stations at Honeysuckle Creek, Tidbinbilla and Orroral Valley have been associated with the US Space programme. The Orroral Valley station is the most important of the three, since it is crucial to the Space Shuttle programme which is important as a development of the "Star Wars" strategy of the Reagan government.

QUEENSLAND

CHARTERS TOWERS

Situated here is a seismograph station to detect nuclear explosions. Other minor US facilities such as seismograph stations, which are of little strategic importance also exist at Hobart, Adelaide, Alice Springs, Mundaring and Narrogin in Western Australia.

CABARLAH (near Toowoomba)

Cabarlah hosts one of the four SIGINT electronic stations in Australia administered by the DSD for the NSA (see "Defence Signals Directorate").

NORTHERN TERRITORY

SHOAL BAY

A NSA electronic station was set up here replacing the British SIGINT base in Singapore (see "Defence Signals Directorate").

DARWIN

Landing rights for B-52 American bombers were granted in 1981. The US refuses to confirm or deny whether the bombers are carrying nuclear weapons.

ALICE SPRINGS

Situated here is a US Air Force facility, Detachment 421, which has an intelligence function. Code named "Oak Tree", it is part of the global seismic network designed to detect, identify and locate underground nuclear explosions down to one kiloton strength.

PINE GAP ("Merino")

Situated here is the Joint Defence Space Research Facility (JDSRF) run by the CIA with participation by the National Reconnaissance Office (NRO) and the National Security Agency (NSA)—both US intelligence organisations.

The facility is a ground station for spy satellites which are in geostationary orbit. It is dominated by six silver-white radomes, which range from six to 33.5 metres in diameter, mounted on concrete structures. The perspex radomes protect and hide antennae.

The antennae receive signals from the satellites which "suck up like a vacuum cleaner" a

wide spectrum of Soviet and Chinese military communications and most radar transmissions. This provides data needed to map the Soviet early-warning and air defence networks.

The facility apparently is capable of monitoring domestic communications in Australia.

"Aquacade", the proposed supersatellite, will utilise the facility at Pine Gap.

The facility at Pine Gap is reportedly part of a covert satellite communications programme which enables CIA agents and fixed transmitters to communicate from behind "enemy" lines with CIA headquarters in Langley, Virginia, USA.

WESTERN AUSTRALIA

NORTH WEST CAPE ("Harold E. Holt Communications Station")

This facility consists of VLF and HF receivers and transmitters arranged in three areas spread over 60 kilometres.

It is the most important of three such stations around the world. These stations are capable of communicating command signals to Poseidon and Trident submarines, therefore making them crucial for a first strike scenario. The facility may take over from Omega communicating with Hunter-Killer submarines as well.

It covers the south and west Pacific and the Indian oceans and is part of the command and control of the Rapid Deployment Force in the Indian Ocean.

It is administered by the National Security Agency's Naval Security Group (NSG).

LEARMONTH

A US Airforce observatory is situated here which detects solar activity which can effect defence radio, radar and missile trajectories.

CHRISTMAS ISLAND (3000 kilometres north west of Perth)

Between 1976 and the early 1980s a US facility was installed to provide for collaboration of an anti-submarine sonar detection system at Diego Garcia called "Project Flowerless".

GERALDTON

50 kilometres inland from Geraldton is the LAGEOS Satellite Tracking Station which is vital for maintaining the accuracy of the inertial guidance units on US missiles.

PEARCE AIRFORCE BASE (near Perth)

The base hosts a National Security Agency American SIGINT (Signals Intelligence) facility (see "Defence Signals Directorate").

PERTH

Situated in Perth is the Department of Defence Telemetry Station which monitors the GEOS 3 satellite. The satellite monitors accurately the earth's gravitational field, since this influences missile trajectories—Trident and MX missiles.

MONTE BELLO ISLAND

Britain exploded its first nuclear device here in 1952; followed by two more on May 16 and June 19, 1956. The June blast had a 60 kiloton capacity. At one monitoring point, 3,200 kilometres to the east, radioactive iodine concentration increased a hundredfold.

COCKBURN SOUND

The facility HMAS Stirling Naval Base in Cockburn Sound on Garden Island was offered by the Fraser government to America as a homeport for the US Seventh Fleet (70 per cent of which is nuclear powered). The offer was not taken up but the facility may become a forward base for the Trident submarine. At present, along with Geraldton, Bunbury and Fremantle US warships (frigates, cruisers, destroyers, etc.) and submarines regularly use the port facility at Stirling.

SOUTH AUSTRALIA

EMU FIELD

Two atomic bomb tests were carried out by Britain here on October 15 and 27, 1963.

MARALINGA

Seven atomic bomb tests were carried out by the British between September 27, 1956 and October 9, 1957, along with a series of "minor trials" up to 1963. As a result of this testing 20 kilogram of plutonium was left scattered through the area. Aborigines may have been directly affected by the blasts. Fifteen thousand Australians were involved in the work at the three British bomb tests sites over the twelve years in Australia.

NURRUNGAR ("Casino")

Two large spherical perspex radomes protecting antennae are situated here. The facility processes data from multi-purpose geostationary satellites which give early warning of missile launches and nuclear test detection. It also is involved in photographic and electronic intelligence. Nurrungar provides instantaneous data link between the North American Aerospace Defence Command (NORAD), the Strategic Air Command (SAC), and the National Military Command System on the one hand and the satellite early warning system on the other hand. There is also a direct link with the Department of Defence in Canberra.

TRANET STATION 112

This facility monitors Transit (navy navigation) satellites. It is currently helping to set up NAVSTAR, "Navigational System using Time and Range", which will eventually replace Transit. The NAVSTAR system will include at least 18 satellites which will enable missiles with a range of 11,000 kilometres to determine their position within 10 metres before releasing the warheads. This accuracy is probably due to the improved inertial navigation system in the missiles (see the facility near Geraldton, Western Australia).

NAVSTAR satellites, once in place, will be monitored from the United States and will be utilised by Trident 2 and MX missiles.

To my presumptuous "anti sexist" brother.Though many of you have claimed the title"anti sexist"there are still some sexist attitudes surfacing. It's a known fact that you can work on becoming "anti"anything if you continue to educate yourselves,and work at trying to understand the problem.Understanding means interaction,but many of you seem to think because you stopped using taboo words such as:bitch,slut,baby,ect..you fall into the"anti sexist"catagory.Well...actions speak louder than words!It's time to stop patronizing your working class sisters,and time to start working with them.Support her in her own struggles!When you are out with a group of men,and you hear them talking about women as if they were a peice of meat..Call them on it!Don't just let it slide off your back because their lifestyles are differant!Nazis have a differant lifestyle too.When a woman stands up for herself,stand behind her and support her,don't jump in front of her.Finally,I understand that being called sexist tends to put men on the defense,but the next time a woman calls you on something she feels is oppresive towards her,Don't automatically assume because you claim:"I'm not sexist",you can close your ears and get your back up without listening to what she has to say. Who decides what is oppresive to women?Women who have lived with oppresion all of their lives,or men who have just began to question it?

Before you feel offended towards this,remember sexism is not only a hateful and degrading problem,but it is just one more thing that has the potential to keep us divided.

FIGHT BACK

F.B-Could you start with a brief band history, you know how long ONE BY ONE have been going, line-up that sort of thing?

OBO-ONE BY ONE crawled out of the primordial soup about 3 years ago out of the ashes of "PLEASANT VALLEY CHILDREN" and "GENERIC". We'd known ea -ch other for years and being addicted to the rediculous "being in a band" thing. We got together to blast out some political hardcore punk rock. Karin joined us after moving to Newcastle (from Belgium), just over a year ago now which gave us a much needed kick up the arse.

F.B-What releases do ONE BY ONE have available to date ? Where can they be obtained ? Are there any future plans to release more vinyl ?

OBO-We've loads of stuff kicking about on compilayion tapes all over the place. On vinly we've done and released 2 EP's on our own label that are both still available from us. We did an LP which got released on "WORDS OF WARNING" which is out of press and will probably remain that way. As a band &people (we try to combine both) we're totally into the D.I.Y. ethic, like it might sound arrogant + elitist keeping stuff out of shops and distributing thro -ugh the underground.

It's like you've got to educate people to the under -ground and become part of it, instead of just consuming a product to me thats the most important part of punk creating alternative, international networks of people, with a common attitude of reacting against bullshit. Bands are yust one part of that. Punk is still a place where you can change history, an idea can become a band a distro, a zine, record etc, and that can go on to have an influence on peoples dec -isions and lives. It's fuck -ing amazing when you relise your power if you work at it. Err...Oh yeah we're are gra -dually putting together an album right now.

F.B-On your EP "FIGHT", you've got a 2nd singer, Karin. How did th -at come about ? Do you think Karins vocals give ONE BY ONE just that extra bit of versit -ility vocal wise ?

OBO-Right from the start we were looking for a singer but no-one with the commitment and dulcet tones we were looking for was around.Karin moved to newcastle as she and Micky were "nesting" and we knew she had a raging voice as we'd played with her band in Belgium, so we asked her to join.Its really improved things.

Especially at gigs-it means Micky and me can conc-entrate on playing and the voice is fucking awesome. Womens vocals(and voices for that matter) have been pretty restricted until the last few years either squeaky D.I.R.T. crap or la la la stuff.I guess 'cos theres 2 of us who sing it stops the sound getting too boring.

F.B-I suppose I should really dir-ect this one to Karin if pos-sible.The punk scene is still pretty much male "dominated". Do you think singers like Amy Nausea,Lynne Disaffect are giving that bit of extra help to change peoples attitudes towards women in general ?

OBO-Karins away just now so here are my thoughts.Punk is in many ways different from "normal"(HA!) society.But it's not totally free from the bullshit that it creates. So sexism & racism exist in punk.

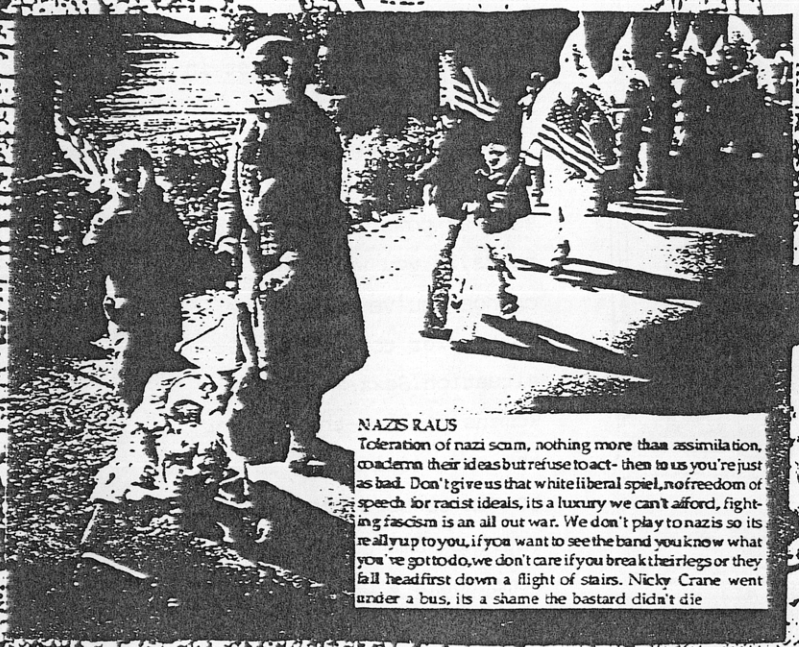
Most bands,zines,scenes are dominated by white men-so most power lies in their hands.If you want shit to change you've got to use that power to change that situation.Sexism isn't a womens problem-they suffer the end results-but it's up to men to sort themselves out.The same goes for racism, homophobia & on & on as far as you like.

The Riot Grrl movement here has kicked up alot of shit & despite the press talking shite about it(when do they do anything else)it's created loads of good things & challenged alot of "RIGHT ON" attitudes.Obviously wom-en being prominent in bands is insnspiring for other wo-men,and dickhead blokes with get your tits out attitudes. They get fucken blasted if they try it on and are made to feel really fucking stupid for their efforts.It's like its no longer "cool" to dance violently & be a macho KNOB-END,which is excellent to see,but it's only a start.

I don't mean this from a lib-eral whinging guilty way-it's the same as anything else-you've got to sort out your attitude &actions so you're not fighting yourself, wasting your energy contradi-cting your beliefs.We've all been damaged from birth,pumped full of propaganda,there's loads to unlearn,if we stand

a chance or organising a viable FIGHT BACK.Guilt doesn't help- not tollerating bullshit des -igned to keep us in our places does.Fight the power as some -one once said.

OOKLET



NAZIS RAUS
Toleration of nazi scum, nothing more than assimilation, condemn their ideas but refuse to act- then to us you're just as bad. Don't give us that white liberal spiel, no freedom of speech for racist ideals, its a luxury we can't afford, fighting fascism is an all out war. We don't play to nazis so its really up to you, if you want to see the band you know what you've got to do, we don't care if you break their legs or they fall headfirst down a flight of stairs. Nicky Crane went under a bus, its a shame the bastard didn't die

So I guess thats the way it comes across.

Sorry about me writing -I've got a newly found kitten on me knee.

F.B-You recently went on tour,"The Chaos 93 Tour",could you tell us a little about that.How it went in general,places you toured etc ? Also a little bit about your slight mishap in Poland ?

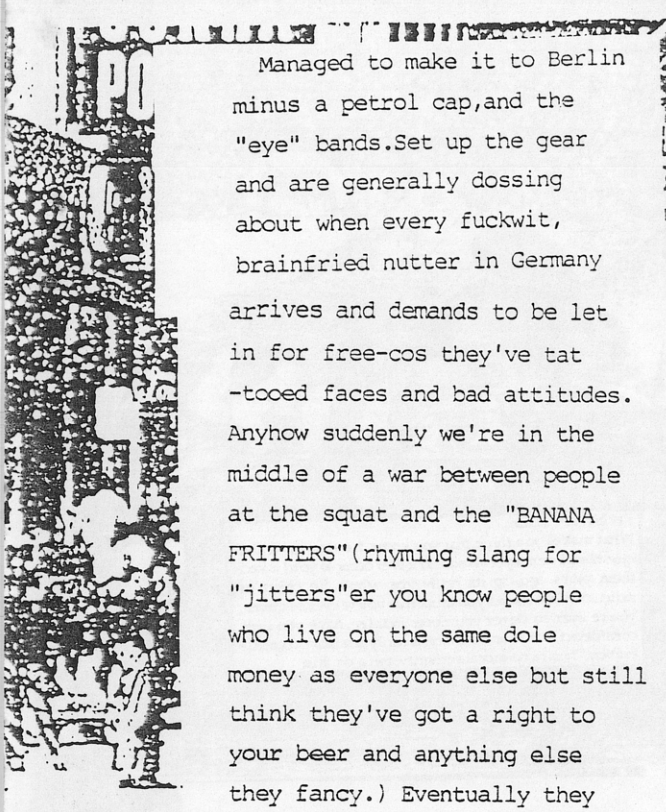
F.B-Who's the culprit responsible for writing ONE BY ONE's lyrics ? What do they deal with ?

OBO-RIGHT WELL YOU ASKED.....

The plan was to take our trav -alling circus,us+ SEDITION + assorted vagabonds,mainland Europe and Poland,CZECH REP. Well the alein beings that control these things neede -d a bit of shaking up.

The first few gigs were canny-usual grins,beers and jumping shinnanigans-oh except my bass cab and amp blew up. But we kicked off a raging D.I.Y. rave,which was as much fun as you're allowed in Belgium on a Sunday night.We aquired 2 more bands "Bugeyed" and"JAPS EYE " who ran away with our circus and blasted through another couple of gigs Bricey (SEDITIONS bassist) was still bright green-he'd been unlucky enough to have a birthday-and was beginning his collection of tour diseases- kicking off with a nasty little creeping skin disorder.

OBO-We're all guilty-whatever passionsare lurking within us,gets slapped into a rant. We generally have to bicker over the odd thing until we're all happy with it-not that we all agree 100% with everything. But we are 4 different people with different views on life which means we come up with stuff thats probably abit more diverse and fresh than if 1 person was doing it all.Our lyrics are our thoughts,ideas and reactions to life,we're all pretty political,inour outlook(-but then again tell something thats not political. The status quo is an extreme capitalist nightmare-so it's not like you can avoid it.-If you're living in some zany black comedy,like we are,then screaming about anarchy seems pretty reasonable to me.)



Managed to make it to Berlin minus a petrol cap,and the "eye" bands.Set up the gear and are generally dossing about when every fuckwit, brainfried nutter in Germany arrives and demands to be let in for free-cos they've tat -tooed faces and bad attitudes. Anyhow suddenly we're in the middle of a war between people at the squat and the "BANANA FRITTERS"(rhyming slang for "jitters"er you know people who live on the same dole money as everyone else but still think they've got a right to your beer and anything else they fancy.) Eventually they retreatand just for a laugh start headbutting each other.

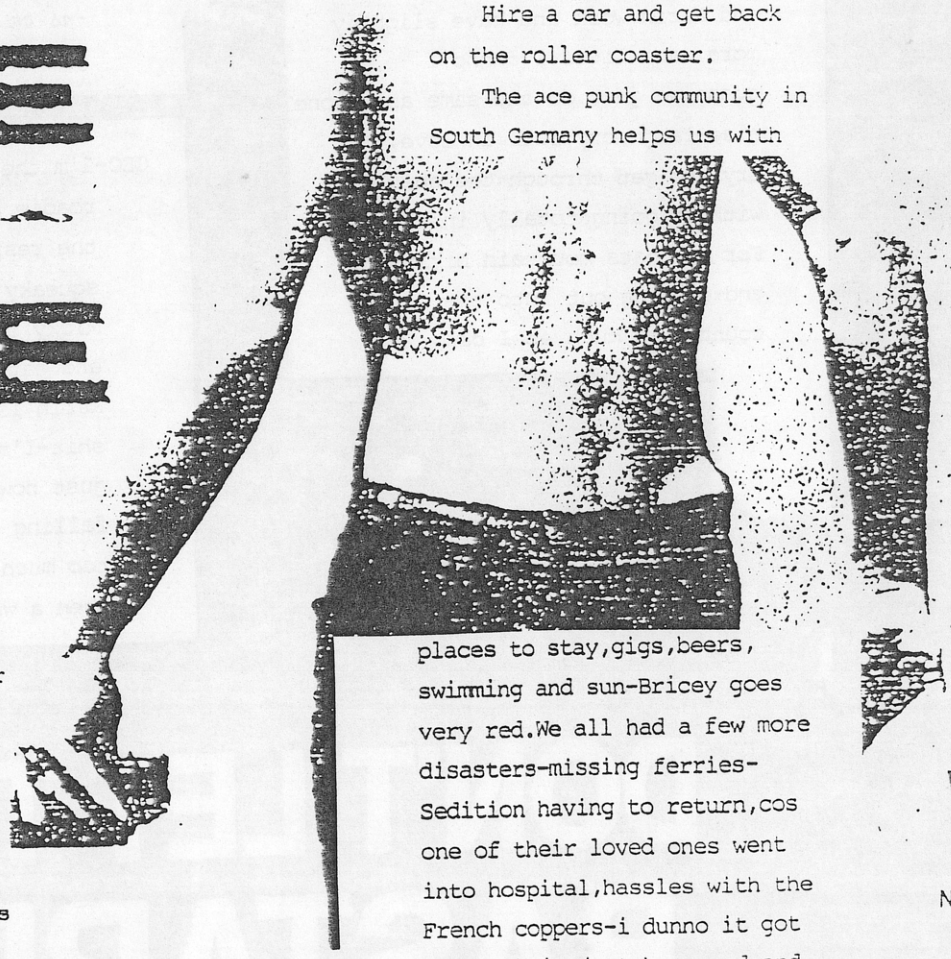
Luckily the coppers were there dead quick to fine us and try to arrest us-it's a good job they were there or we'd have to have fined ourselves and we were to fuc -ked up for that.The Polish women reveals that in fact she is an angel andwhisks us away from the coppers,finds us a place to stay and initiates me in the mysteries of the Polish phone system-so me think that only the Dali Lama and the keepers of the knowledge understand.Spend 2 days in Poznan train station being stared at by 16 year olds with guns-cos were freaks.

Bricey goes pink.-We go to Berlin,our roadie flies back to the U.K.to escape.

Hire a car and get back on the roller coaster.

The ace punk community in South Germany helps us with

ONE BY ONE



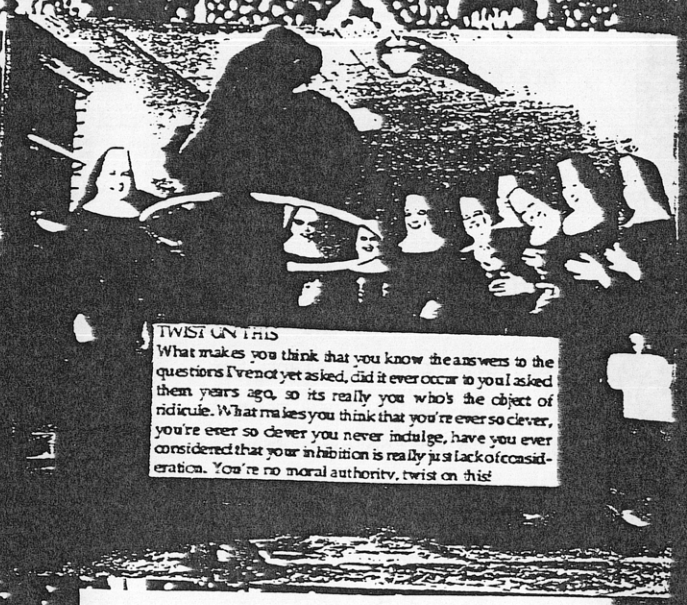
Bricey turns a whiter shade of pale.

We head for Poland and get all excited.Get stoppedat the border and have to wait for hours,cos a Polish woman we're giving a lift to lost her passport-enough redtape to wrap around,wearing sunglasses to make the rain look greyer listening to TERMINUS to make us look greyer-then suddenly someone,no doubt an alien-turns the van into a washing machine and slaps it into spin cycle lives flashed before the wrong people and the Grim Reaper tweaked our pubic hair- then it was over no more van, a knacked roadie and 4 gibb -ering idiots.

places to stay,gigs,beers, swimming and sun-Bricey goes very red.We all had a few more disasters-missing ferries- Sedition having to return,cos one of their loved ones went into hospital,hassles with the French coppers-i dunno it got so sturk it just happened and another ghoulie went boo.Older and wiser-mmm not really-just a bit more fucked up and determined.

HUNGARY '56

F.B-Are any members of ONE BY ONE involved with anything outside the band ? I know Alec's involved with FLAT EARTH RECORDS.



TWIST ON THIS
What makes you think that you know the answers to the questions I've not yet asked, did it ever occur to you I asked them years ago, so its really you who's the object of ridicule. What makes you think that you're ever so clever, you're ever so clever you never indulge, have you ever considered that your inhibition is really just lack of consideration. You're no moral authority, twist on this!

OBO-Me andSned do Flat Earth records-a label and distro that releases our stuff, Disaffect and Sedition stuff and the like-it takes up lo-ads of time cos it's mail order as well.We're also involved in running the 1 in 12 club a D.I.Y. VENUE/CAFE/ meeting place and for some reason we do another band called "Health Hazard",who play fast nasty punk.Micky and Karin work and have slightly more sane lives.I dunno I guess we just do the same as anyone else-laugh,cry,fall in love, try and get through the shit without going totally insane. For me thats mountain biking and getting out into the country as much as I can.

F.B-Just a bit of change of pace here,are any of you vegetarians or vegans ? If so what's your favourite pig out food ?

OBO-I'm the only vegan,after our roadie has abandoned ship the rest are vegies-yep we're squeaky clean right oners. Micky and Sned are fat as pigs and eat fucking anything-Karin is into Dutch cheesy shit-I'm not much into eating just now,cos my teeth are falling out through drinking too much nasty cheap cider when a was a wee lad.

F.B-Do any of you listen to anyth -ing other than punk/HC ? If so what ? Who are some of your favourite bands (other than punk/HC bands) ?

SWIRL

What can you do, when your emotions start to show through ?

Feel like exploding, losing my mind,
Tied down in turmoil, expression left behind.

The games that we play with each others lives,
They hurt, destroy, time after time.

Can't take the strain, rips me apart, hate myself,
Pressure and pain, help me - don't need this.

Dazed and confused, we all lose.

JRSELVES A BETTER WORLD BRICK BY
TEARING UP THE FUNDS OF SOCIETY

OBO-Sneds into rap the old "mother -fucker"that he is,when he's not listening to "DIS" bands I'm right into techno:mental fast hardcore and ambient shit-some raps canny-not all the big dick gangsta crap,but political stuff.
Micky likes tuneful stuff,
Karin likes all sort of punk.

F.B-Well I suppose thats it,would you like to add anything in conclusion ?

OBO-In conclusion I'm away for a shit,so I'll say cheers for reading all this babble-hope it wasn't too boring.Write to us.Cheers.

BLAGGERS I.T.M. (in the money.)

Well looks like we here at FIGHT BACK, were made to look like right plonkers after the last issue, we put in an article by the BLAGGERS I.T.M. about the rise of fascism. This article was released in the mainstream musick press, and was paid for buy money from E.M.I. (SO WE REPRODUCED IT), supposedly from what was to be the BLAGGERS I.T.M. only release on the mainstream MULTINATIONAL label. But as the old saying goes, "MONEY CORRUPTS", and it obviously has corrupted the BLAGGERS I.T.M.

ONLY STUPID BASTARDS (BLAGGERS) HELP E.M.I.

D.I.Y. NOT E.M.I.

'Carin[illegible]

Since after releaseing the so called only E.M.I. release, STRESS, the BLAGGERS I.T.M., asked E.M.I. if they could make a video for STRESS, E.M.I., agreed. And Matty Blag flew to RIO, (thats right RIO.) to make the video. Rock star or what???

Someone that knows the BLAGGERS I.T.M. very well (in fact he released their last 5 releases before they signed to E.M.I.) told me personally that they are only staying with E.M.I. so as they can milk as much funds as can out of them for various causes.

So the BLAGGERS I.T.M. have decided to sign a 5LP deal, they have already released 2 EP's since the signing, OXYGEN, and ABANDON SHIP, on Parlophone Records, a subsidery of E.M.I.

What the BLAGGERS I.T.M. seem to have forgotten is that THORN/E.M.I. THE parent company of their record label is a major investor and constructor of weapon systems, nuclear weapons guidence systems, vivesection and forms of security control equipment that has been sold to nice peace loving countries such as CHILE & SOUTH AFRICA.

Stop fooling yourselves, and stop defending wankers that are making big bucks off you, their gigs cost more to get into, T-shirts are outrageously priced and the venues are swarming with bouncers.

Don't be conned by rock stars, we at FIGHT BACK WILL NO LONGER STOCK ANYTHING THESE WANKERS HAVE RELEASED, INCLUDING A BENEFIT TAPE THAT THEY LET US RELEASE..

You are helping fund actual FASCIST Governments crush, and destroy real life and death underground resistence. As well as helping to make punk rock another consumer product, that can be controlled by BIG BUSINESS.

It's fucked that people that are supposed to be anti-fascist areactually helping fascists so as their message can get across to a wider audience, I'M sorry but it doesn't wash here, neither does any so-called anarchists that will buy their new releases and stick up for them, saying things like, "check out the lyrics, they haven't lost there morals." etc etc.

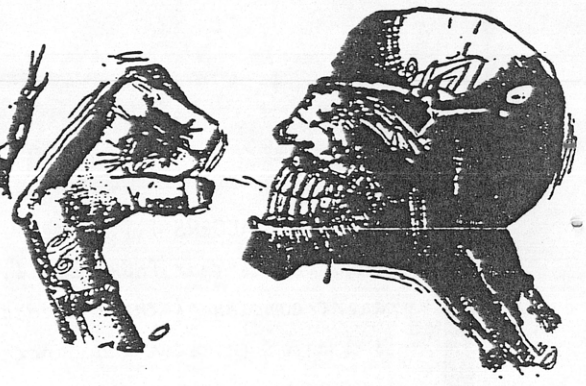
SUBVERSION



F.B-I suppose I should ask who are SUBVERSION?How long have you been together and what if any was the reason for forming the band?

SUB-SUBVERSION are Chris-vocals,Toby-drums, John-bass,and Steve & Quiff on guitars. We've been together since December 92 when Toby completed the band 2 weeks before our first gig.The main reason for us forming was just to make noise at first because we didn't come from other bands or anything like that.

We were just mates who got together for a beer and to make noise and it just started from there.

F.B-Have you played many gigs?Are there any plans to tour interstate?

SUB-Yeah we've played quite a lot around Sydney,which I didn't expect at first because of hearing romours of it being hard to get gigs but it's not at all.

We've just come from playing two shows in Melbourne with Savage Cabbage and Beanflipper which were great.

F.B-Would you agree that your lyrics are fairly political in context? Whats the reason if any for this? Who writes SUBVERSIONS lyrics?

SUB-Chris writes a majority of the lyrics but it's usually whoever writes one first,if everyone likes it we'll use it.They are fairly political because we feel that there is a hell of a lot wrong with this world run by corrupt politicions and people need to be told whats going on and what there doing.

F.B-I've heard a comparison to you & E.N.T.,whats youropinion to that sort of comparison to other bands? Do you really find it complimentry or a put down?

SUB-It's good people say you sound like bands you like yourself but we don't try to clone anyone.We try to make our songs as different to each other as possible.

F.B-What's your opinion on apathy & drug use within the scene? Do you think there's still far to much?

SUB-Three of us are vegetarians,I gave up meat because I used to live on the other side of a slaughter house than my mates,and had to pass byall the time to hear sounds of screaming animals and the disgusting stench of death.Iwould never consider eating meat again.I think being a vegie is a much healthier way of life and it does make you a much more compassionate person to other living creatures.

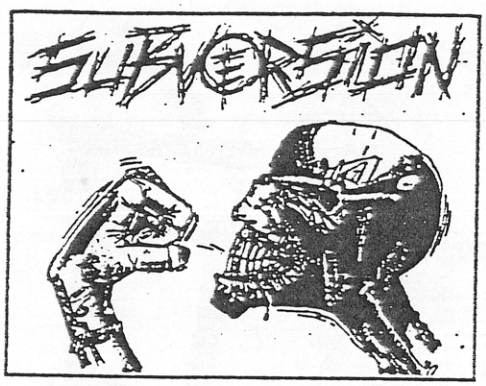
F.B-*You played at the recent (13th) Punx Picnic,were you pleased with the gig, turn out & Isuppose the day as a whole.(Iknow I was,a magic day all round I reckon.)*

SUB-The Picnic was a really good day,it makes a change when people say the -re's goimg to be bands on and there was.It would of been better if it didn't piss down but the turn out was still great.

SUB-In both the scene here and in England there's far too much apathy,If only people got up off their arses and went to gigs the scene would bereally good.As for drugsuse,I don't think there's any more use in the punk scene than any other.Ipersonally just drink so I wouldn't really know how much use there actually is but if I agree with it or not is up to the individual.

F.B-*Are any of the band vegetarians or vegans? If so what prompted such a change in diet,would you ever cons -ider eating meat again? Do you be -lieve that being vegie or vegan is a better life style for children and adults a like.Do you believe it makes you a more compassionate person to other living creatures?*

ALE HO
Y 30th JA



F.B-Do you have any plans to release a demo or vinylin the near future?

SUB-We've been in the studio a lot lately firstly to record a song for the Sydney comp E.P. and also to do two songs for a comp C.D. in Melbourne, we also recorded a few other songs but were not going to release a record of our own until we can rec -ord a lot on songs for it.

F.B-The Aussie punk scene in general seems to be picking up again,Who are some of your fave Aussie bands at present?

SUB-I don't really want to mention any particular bands in case I forget to mention someone.Then I'll be pi -ssed off later,but there is sone good bands around at the moment.

F.B-Well thanx for your time and the interview.Before we part ways is there anything you'd like to add that you think I should have asked or covered or anything else you mi -ght want to say?

SUB-Yeah,thanx to everyone who comes to see us especially the one's who have travelled.

And thanx to Grog Cockroach for doing a majority of our Art -work.

Cheers for the mags,stickers and records any more contributions to the Quiff record collection will be gratefully excepted HA HA

FREE EAST TIMOR

DILI MASSACRE ANNIVERSARY

November 12,1993 marked 2 years since the massacre of hundreds of una -rmed East Timorese demonstrators by the Indonesian army of occupation in Dili.On this day people around the world took to the streets to demonstr -ate their anger and spirit of resist -ance to the continuing brutal occupa -tion of East Timor.In Darwin about 100 people gathered at Parliament House to hear speakers both East Timo -rese and non-Timorese.Banners,placards and T-shirts highlighted the struggle to achieve self-determination.The demonstrators marched to the Indonesian Consulate(which is now situated in the city centre right opposite Darwin civic council chambers.) chanting slogans, blowing whistles and beating drums.The consulate was of course guarded by a line of N.T.police standing out in fr -ont.There was some street theatre preformed:young Timorese kids pretend -ing to be shot by the military and laying down on the footpath as an audio tape that was recorded at the Nov.12, 1991 massacre was played over the P.A system,automatic weapons fire,sirens, people screaming "MURDERERS OUT OF EAST TIMOR",was chalked along the footpath in large colourful letters, and outlines of peoples bodies were drawn in front of that.One interesting new idea was bringing along a couple of mirrors to dazzle the main surveil -lance cameras with rsflected sunshine. People had always felt uncomfortable being watched by the electronic eye of BIG BROTHER SIHARTO,so this is a good way to fuck it up and maybe even burn -out the mechanism inside.

The camera kept swivelling around,pro -bably because they couldn't see anything with the sunlight rsflected It seemed they had to give it up in the end,turned it right away from the crowd.The police and the media could see what we were doing but did nothing to stop us.The little Timorese kids had great time with the mirrors!

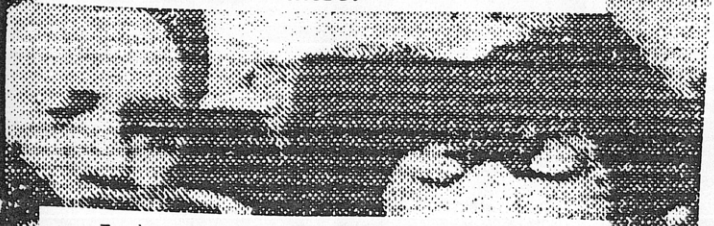
They were also shing them through the Consulate windows like touches,catching by surpise some of the staff who were lurking in trhe semi-darkness watching and taking photos of the demonstrators.At the same time people were using the P.A. system and a mega-phone to yell abuse at Indonesia,telling the consul -ate staff what gutless scumbags they were.

Indonesian Soldiers

Ruthless Killers

There followed a lunchtime concert in Raintree Park(which is like the town square in Darwin) with East Timorese singing and traditional danc -ing.

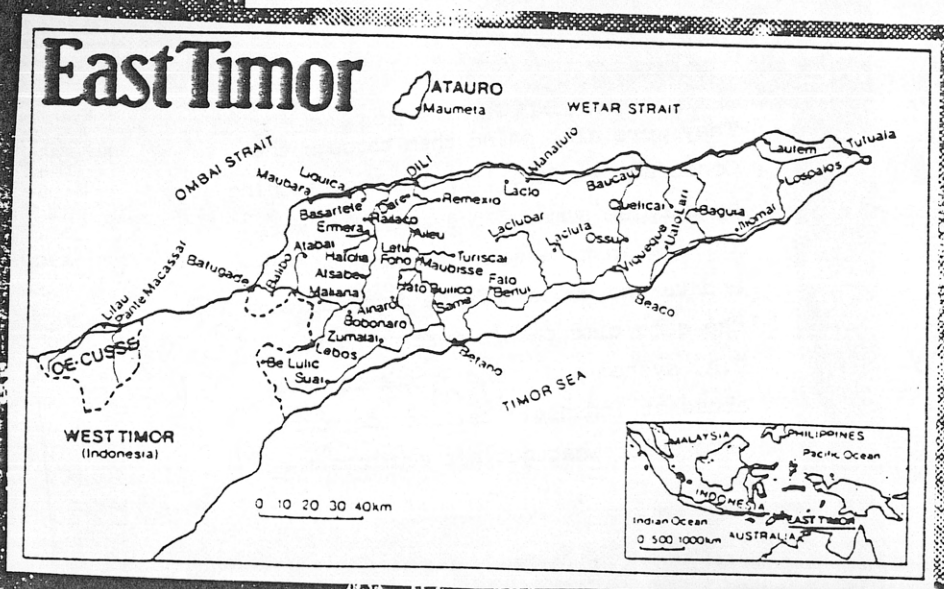
It was a show of strength to prove that East Timor hasn't been defeated- they are still fighting the Indonesian invasion against overwhelming odds,and they will win.One day Indonesia will be kicked out of there.



I chose to cover my face for the demo,I wore a hat,sunglasses and a la -rge red cloth tied around the lower part of my face.This seemed to irritate some people,pigs for example,who said to me,"we still know who you are!"and "what are you trying to hide?" Most of my friends knew who I was though.When an ABC journalist came up and asked why I had my faced covered,I replied,"We don't live in a free country here either mate

There are people walking around with cameras and video cameras taking photos and filming,you don't even know who half of them are,you don't know where the pictures are going to end up,maybe in the hands of the Australian Govern -ment,N.T. Government,ASIO,Indonesian T.V.or the Indonesian secret police. You have no control of it,it's an invasion of privacy.Just because I'm here doesn't mean I consent to having my face broadcast around the world.I might want to go to East Timor or Indonesia but if I've been idenified as "subversive" that will reduce my chances of getting in.Indonesian security forces could even arrange for me to have a fatal "accident".He wanted to do an interview with me afterwards but he never got back to me.

Since December 7, 1975 the East Timorese have been resisting the brutal occupation of their country that is deemed illegal by the United Nations.



Indonesian Soldiers

Ruthless Killers

I had a large empty biscuit tin and a teaspoon to barg in with to make as much noise as possible.On my back I had a placard saying,"THERE IS NO GOD BUT $UHARTO AND KEATING I$ HI$ PROFIT".I don't have a T.V. so I didn't see the reporting of the demo,but fri -ends told me ABC-TV zoomed in on me because I had my face covered,while saying"some demonstrators didn't want to be identified,whilst others were more open"(I was the only person that had his/her face covered)The commercial Darwin channel,channel 8,had only sketchy coverage of the event,and it was on Australia TV International as well.

People in Darwin sometimes say"It's merpati and it'll burn if it wants to." Unfortunately the building,which also houses an Indonesian Restaurant,hasn't burned down yet but there sure is alot of red paint splattered all over the footpath,driveway and gate at the front!

The Indonesian authorities don't let on that all this is having effect, but it must be getting on their nerves, helping to chip away at their authority.

EAST TIMOR: Time for change

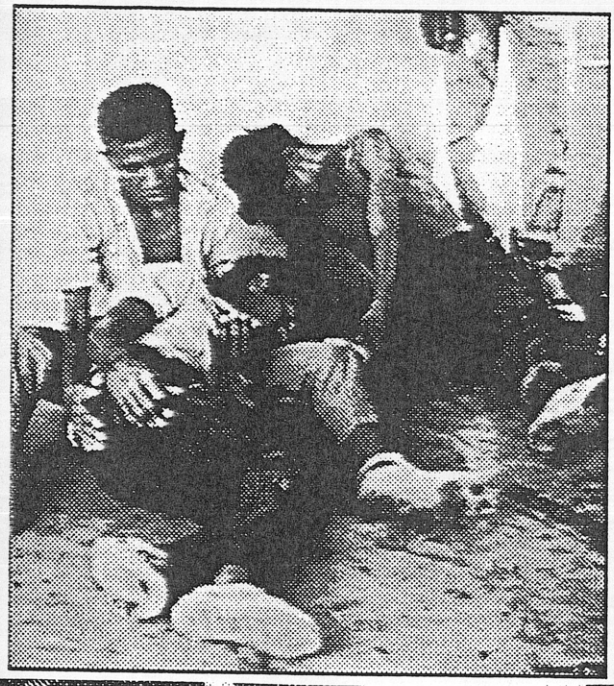
The neon sign of Garuda Indonesian Airways' city office recently got paint-bombed again.In Smith St West there is an office of Merparti Indonesia Airways which like Garuda is owned and run by the Indinesian Military.

And the Australian and N.T. Governments are dropping themsrlves even further into the shit by continuing to support the genocidal Jakarta Regime.People are realizing that they are full of shit,nearly as bad as $uharto and Co.

INDONESIA
THE BRUTAL COLONIALIST

Indonesian Soldiers

Ruthless Killers



Abilio Soares,the Indonesian appointed governor of East Timor recently said that a referendum would be a setback for Timor.It certainly would be for him!

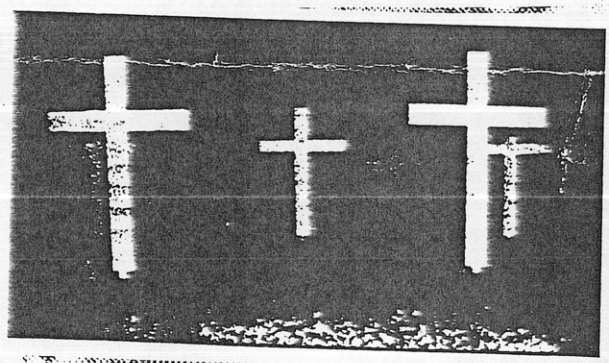
When East Timor becomes independent that slimy bastard will probably be tried as a war criminal.

Now even the U.S. is backing off it's support of Indonesia it should be clear which way the wind's blowing.The Australian Govt. is still sticking by Indonesia.Every other time they've blindly followed U.S. policy.Why not now.when the U.S.at least seems to be taking steps in the right direction? It's pretty stupid.

Meanwhile the East Timorese strug-gle remainsan inspiration for us. Xanana Gusmao said "RESISTIR E VENCER" which means "To Resist is to win". That goes for any struggle:if you're still fighting back it means you're not defeated,you're not yet beaten, you're surviving,and that in itself is a victory.

The Labour party feigns concern about human rights but all they really care about is profits for themselves and their rich filthy mates.They want the oil from the Timor gap and wish the East Timorese would just shut up and die so that they can get on with business without hassles.Unluckily for them more people are waking up to whats going on.All around Darwin are hundreds and hundreds of posters and stickers supporting the East Timorese in their struggle.

International public pressure is growing for a halt of arms sales to Indonesai,and for the holding of prop-erly supervised referendum to find out whether the East Timorese people want to be part of Indonesia or not.Xanana Gusmao,who was captured by the Indone-ian military on Nov,20,1992 after spending 17 years in the bush fighting as a guerilla against the Indonesian forces,said in his court statement "Whoever is afraid of a referendum is afraid of the truth."



VIVA TIMOR LESTE!!
LONG LIVE EAST TIMOR!!
SHELL 63.....

On November 12, 1991, the Indonesian army opened fire on a crowd of East Timorese demonstrators who dared to show their resistance to Indonesian occupation. More than 270 died as a result. They were only a small number of the more than 250.000 who have died since the Indonesian invasion.. However this time the killing was filmed by foreign journalists and seen around the world, raising international concern.

DYING FOR A FAG

WELL THIS IS AN ARTICLE I'VE TOSSED UP ABOUT WRITING FOR A WHILE NOW,I KNOW A LOT OF FOLK THAT WILL BE READING THIS WILL HAVE AT ONE TIME OR ANOTHER DUG INTO THEIR POCKETS AND BOUGHT A LP, TAPE,PATCH OR EVEN DONATED MONEY FOR ANIMAL RIGHTS,ANTI-VIVISECTION CAUSES.

MANY OF YOU ARE PROBABLY INVOLVED WITH GROUPS SUCH AS ANIMAL LIB,ALFSG, FRIENDS OF THE EARTH OR EVEN GREENPEACE.

No doubt at some time you been to a gig,benefit where your money was used to help such campaigns as saving animals,protecting the envirooment ect..

So no doubt you are against the bastards that try to destroy our planet and the creatures that live on it.

If you were asked to contribute funds to the Government on a nearly daily basis,or to give money that would be used to destroy the earth,or fund ANIMAL TORTURE,you'd probably tell the person asking you for the money to fuck right off,maybe even put the boot in.

Unfortunately many of you already do, and some of you are doing it right now as you read this article.I hear cries of not me.

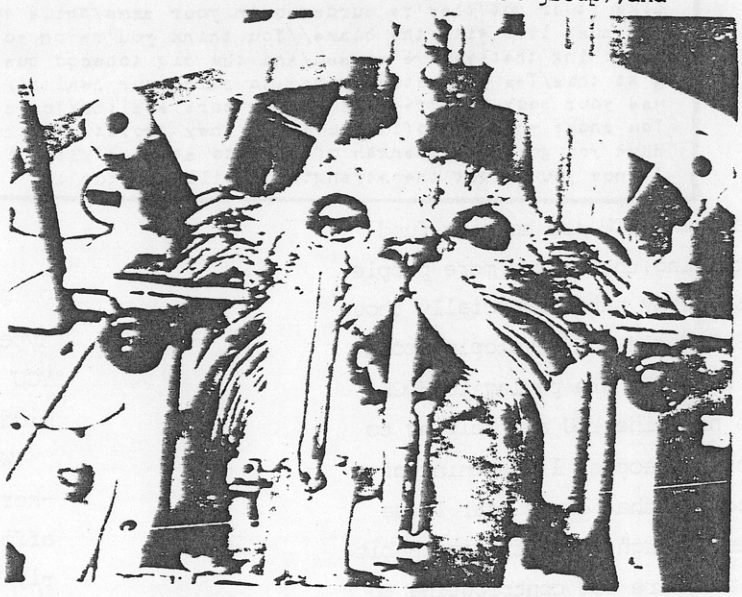
Every time YOU buy your cigerettes YOUR money is being poured back into Multi-national profits,and the sick things they support.

These sick fucks fund many of the horrific experiments that force innocent dogs,cats and rabbits to inhale the toxic cocktails of carciogenic chemica -ls,that eventually kill these animals. YOUR money at work.....

These same companies also pour mill -ions of dollars into our commomn enemy,the GOVERNMENT.

Not only does YOUR MONEY GO DIRECTLY TO THE GOVERNMENT every time you buy a packet of cigerettes,through the tabacco taxes,it is also uesd to fund extreme right-wing organisations.

It is known in England that major tabacco Multi-nationals like British American Tabacco & Imperial Tabacco pour hundreds of thousands into a group called AIMS OF INDUSTRY (a powerful big business anti-trade union group),and



the even more sinister ECONOMIC LEAGUE who compile a regular blacklist of peo -ple like YOU-who they suspect of being subversives,animal rights activist,hunt sabs,greenies etc.

These list are available for the employer so when people like YOU go to get a job to be able to survive in this stinking life,the employer looks up his/her list and says the all to common phase"don't call us we'll call you". Many peoples names are included onto this list by complete mistake,but

HOW TO KILL YOUR FRIENDS...

thats just too fucken bad,YOUR now a commie,greenie,faggot ratbag.

Well with all these things in mind,the tale turns towards YOU & ME,by smoking not only are you destroy -ing YOUR own lungs,heart and skin. You are selfishly killing all the non-smokers around you by f0rcing us to be passive smokers,last year the Australian Medical Board claimed that passive smokers (those of us that breathh in your exhaled fumes) are three times more likely to suffer lung compl -aints and cancers,than people not exposed to passive smoking,so now in your selfishness you are KILLING YOUR FRIENDS AND LOVED ONES,how thoughtful.

say,well these dirty death pushing companies like YOUR tabacco to be "FLUE CURIED",this is the drying out of tabacco leaves over burning wood, which in turn is suppose to provide a better flavour,while 1.4million hectares of forest is being felled each year for that flavour in YOUR cigerettes.

This in turn makes tabacco the sec -ond largest user of timber in the 3RD World only beaten by domestic cooking.Tabacco growing,like so many other cash corps depletes all the goodness out of the soil leaving it barren and unfertile,useless for any other crop to be grown.

YOU COUGH/THEY PROFIT. You cough - they profit//Well I thought it was ab out mutual respect/But your filthy smoke chokes me so am I incorrect?/Wi th your pathetic sick habit you pollute my air/Have you no respect for o thers? No,you just don't seem to care/I don't like your selfish attitude one little bit/You're just a hypocrite//Animals die in the laboratory/Fo rced to smoke over thirty a day/Don't think you can ignore them 'coz the y've got no voice/'Cos only you can stop it - only you have the choice/ Like it or not they're murdered in your name/While you continue to smoke you must live with the blame//You think you're oh so sussed but there's something that you've missed/And the big tobacco businessmen are laughin g at this/Yes you actually pay to ruin your health!/While you suckers ab use your body they're just making more wealth//You cough - they profit// You choke - they profit/You die - they profit//You cough - they profit/ Have you got the strength of will to stop it?/Stop it?Stop it. Stop it!/ I know you've got the strength of will to stop it.

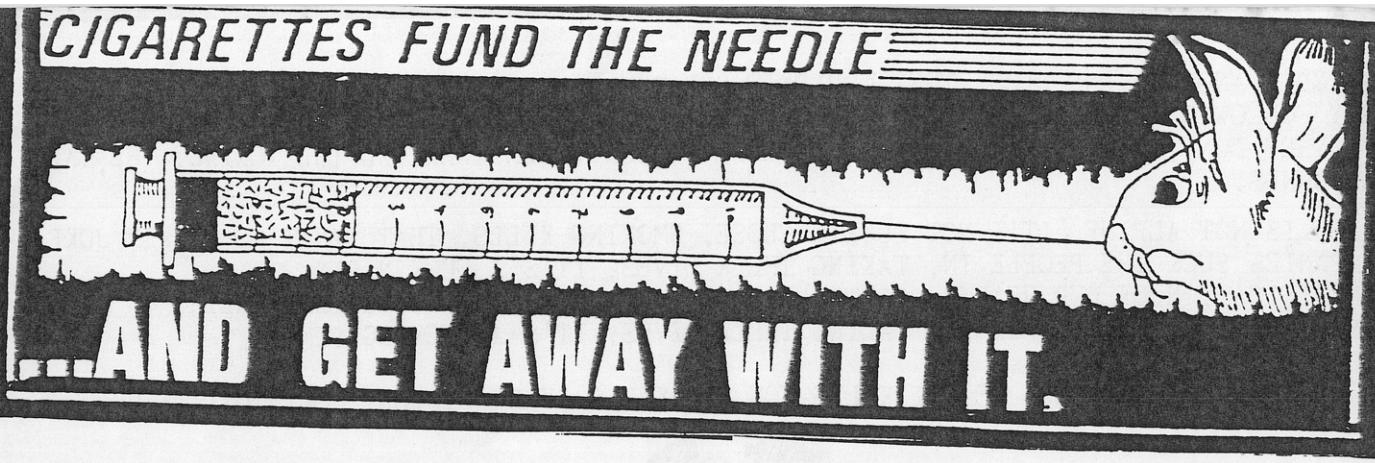
Also by smoking YOU are helping fund the advertising,that sucks more people into this fifthy habit-especially those folk in 3RD World and developing count -ries,in turn YOU are paying to HOOK others on nicotine,YOU are helping to destroy other peoples lives,think of t all the people that every year loose loved ones through this stinking habit.

Not only are YOU contributing to the slaughter of animals,the deaths of non-smokers,the exploitation of YOUR 3RD World neighbours,YOU are directly responsible for the destruction of mother earths virgin forests.How you

Of course all YOU big tough punk types know it'll never really affect YOU as lung cancer only strikes the middle aged section of our community.

Wrong it's well known that many smo -kers in their early twenties are affected by LUNG CANCER,and I personal -ly see nothing punk about having a hole cut in the middle of my throat and a tube fitted into it just so that I can breath.

CHAIN SMOKING



Hey nobodies perfect,I personally smoked for 14 YEARS,even though i knew what these Multi-nationals were spending MY money on.I use to come out with that, "Ican't give up I'm hooked",or"I don't care Ilike smoking" bullshit.

I haven't smoked now for 13 months and will never again.there were several reasons why I gave up,many of which I've already mentioned,as well as went -ing to see my son LIAM grow up,lets face it who wants a dad takes fucked up and dying of cancer,that can't kick a ball around 'cause he weezes because his lungs are fucked.Also all my friends here and abroad who made me feel like a right dick for selfishly exposing them to my filthy habit,(cheers DEEK)

Of course YOUR going to throw me that Drink is tested on animals line to ease your conscience,and yeah I realise that,but by supporting the tabacco habit,just seems to go against everything that the PUNK/ ANARCHO community seems to believe in.

In short it means that we are supporting 3rdWorld exploitation,animal abuse,human suffering and pain,Right wing big business,basically misery and destruction on a grand scale,destruction to this beautiful planet we all say we care about and love and the deplition of oxygen that is so vital to sustaini -ng all forms of animal life on MOTHER EARTH.

THINK,KICK THE HABIT...

YOU REALLY ARE DYING FOR THAT NEXT FAG.

CHEERS ANDREW.....

CIGARETTE SMOKING...

Not smoking is not about being straight -edge,it's about thinking,about caring for what is going on.Cigerette companies are some of the worst Multi-nationals on this earth.Profit from death,It's as simple as that.It's not about pleasure or enjoyment,It's about addiction,about taking control of peoples minds through their bodies

Smoking means fitting in,being cool, peer pressure,nothing more,nothing less. Light up,drink up,fit in,you're part of the crew,at last your accepted.

Feel the rush,take it all in,go on deep breath,you never know maybe it wi -ll be your last.It was the last for thousands of rabbits and monkeys who spent their entire waking moment in terror of the human in the white coat.

Death came slowly to them as it will to you.

How alternative do you think you really are?? Change?? What change do you make?????What do you contribute to the destruction of the mainstream?? Nothing thats right,you give them your money,you advertise their product and you poison me.

YOUR SELFISHNESS MAKES ME SICK,

THINK,ACT,DO SOMETHING POSITVE..

GIVE UP..NOW.....

MARTIAL MOSH

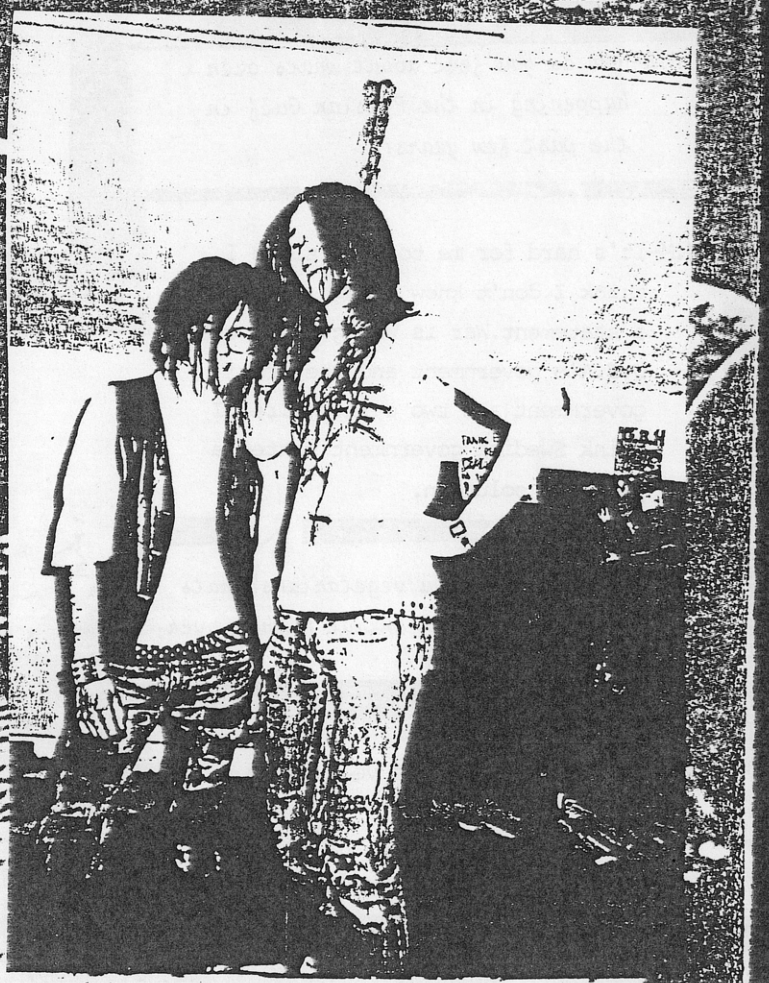
The following interview was done through the mail not so long ago, all answers by Marco "sauna core" Mikan. Fuck ups COURTESY of drunken hand writing and the fact that he speaks mostly Swedish, not English.

F.B-Who are Martial Mosh and when did the band start?

M.M-We started in 1986 and still have the same line-up: MICKE-Vocals, DAHL-BERG-Guitar, MARCO-Bass, KLINT-Drums. I Marco am 24 years old and hate work but enjoy school and trading records. Ialso have a record label called "JESUS KUDD" which has 2e.p-s (probably more now, F.B.) on it's conscience-DISCARD "Death from above" and ROVSVETT "Lepracliff". Both are available for $5 each (yep it's expensive, but postage is very high in Sweden.) Micke sings and lives in Stockholm. Micke and Klint used to play in a punk band called "PANIC BRAZIL". Micke is 25years old. DAHLBERG plays guitar and is unemp-loyed. He's 26 and buys the most rubbish records you can imagine. (I don't know you should see Alberts records-F.B.) Klint is 24 and martial arts is his big passion in life. Well he's a good drummer.

F.B-What does the name mean?

M.M-It means aggressive, fast music. At the beginning we thought MARTIAL FARTZ, but it sounded like martial arts so we took MARTIAL MOSH as a name. We're not too happy about it but we don't play moshmetal incase anyone thought so.



F.B-Tell us about the punk"scene" in Sweden.

M.M-It's not good,but not bad either. Gig places which arranged concerts with H.C/metal bands are ROCKBORGAN in Fagersta(This has recently shut down butthey will get a new place). CAFE Q in Gaule also arranges gigs now and then.ULTRA was a good place in Stockholm,but it no longer exists, they've got a new place.There's also a place in MALMO who arrange gigs. Sweden hasn't got a big punk scene nowadays,the death metal scene is bigger.

F.B-How would you describe Martial Moshes music and lyrics?

M.M-Well it's fast and aggressive hardcore.Nearly all the lyrics are written by Klint and they're about love,war,disappointments,government stupidity and enviromental destruc -tion.

F.B-How do you feel about whats been happening in the Persian Gulf in the past few years?

M.M-It's hard for me to tell since I think I don't know enough to make a statement.War is wrong,to me the U.S.A's government and the Iraqi government are two evil empires.I think Swedish government wanted a peaceful solution.

F.B-Are any of you vegetarians?Whats happening with Animal Rights over there?

M.M-Micke our singer is a vegetarian, Klint used to be one for 3-4 years, but not any longer.I am vegetarian to.Animal rights in Sweden isn't big at all,if you compare it to England We have the A.L.F. and NORDISKA SAMFUNDET MOT PLEJSAMMA DIURFORSOK (it means Nordic collective against painful vivisection.)They have shops which sell make-up,shampoo and stuff like that ,which isn't tested on animals.Ecology movements are bigger we have a party represented in Govt. called ENVIRONMENT PARTY.It can't affect many decisions but they can sometimes work out new enviromental laws with the bigger parties.Sweden is probably the cleanest country in Europe.Sweden has also got the best laws and restrictions against poll -ution,but that doesn't mean Swedish factories don't pollute.Unfortunately we can't stop pollution from Poland and Germany which falls down on us.

F.B-Well thats about it,anything else you'd like to add?

M.M-Thank you for letters,if anyone wants to write to me include an I.R.C.THANX.
Shit that MARTIAL MOSH have out:
1988 split tape with HORSELAUGH
1989 2nd demo,released as split e.p. with 16B.U.H.
Also we have 2 songs on UPROAR Recs compilation "HARDCORE FOR THE MASSES ...THE CORE OF SWEDED."

Write and get some records off this dude as he is hell cool and funny.

IT'S A CRIME

WELL HERE WE ARE ONCE MORE, I WON'T RAVE ON TO MUCH OTHER TO SAY, WE'VE GOT A FEW NAUGHTY BASTARDS IN THIS ISSUE. SO ON WITH IT'S A CRIME.....

**Police were left licking their wounds on New Years Eve at BYRON BAY when 3000 revellers turned on them when police decided it was in "CUR" inter -est to close the pubs as the crowd of 20 000 were getting a bit rowdy, christ they can't have the general public having unsupervised fun, can we?

Arrests were made, but not before the filth were attacked and several hurt, just goes to show that when we really want to party it scares the shit out of the authorities.....

**On January 13th as Det. Darren (WHAT THE HELL WAS THAT?) Soppa decided to do his yearly good deed for his aging parents, mow the lawn, he kicked what he thought was a lump of concrete out of the path of the mower, only to find it was a booby trap laid there earlier for him. It seems old Dazza recieved severe cuts to his legs, arms and stomach. Dazza's mum told reporters that she had seen it days before, and even stepped on it as she went to get the post. However she left it, not thinking any thing more about it. Good on ya mrs soppa.

**Police in BRISBANE were made to look what they really are on the 23 FEB, when they arrested 3 students at the Queensland Uni,during a protest SMOKE IN,to bring attention to the pathietic pot laws.

It seems police waited eagerly as the three students,who were also the org-anizers,rolled up hundreds of what appeared to be joints.

As the students were about to share the"joints" around,police made their move and arrested the thr-ee.Taking them and the Green leafy matter away to be tested,imagine how stupid they felt when their mega bust ended up being parsley and lawn clippings.

Sounds to me like there was only one kind of dope at the Uni,and it wasn't being smoked.

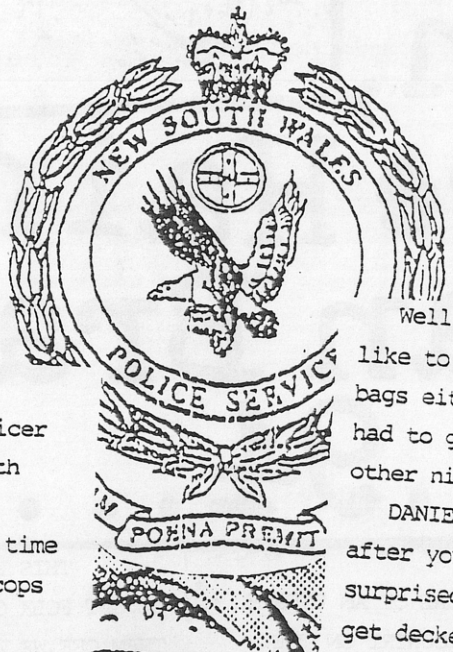
**The New South Wales I.C.A.C,is to investigate allegations that certain members of the NSW police force took backhanders from known PAEDOPHILES in return for protecting them from being investigated in a major invest-igation into PAEDOPHILE activities since 1983,

Well how could any parent tell their child to always trust the nice police officers???????????

**Also on the 23rd,Senior Constable Paul (sick in the friggin'head) YOUNG was arrested for the murder of his pregnant Filipino wife.It seems old Paul got sick of his wife,and beat her to death then dumped her body on the side of a road.Well Ihope he gets life and sent to a Maximum security prison,cause if the-re's one thing prisoners hate worst than wife beaters and killers, it's fucken cops,I hope they kill you, you sick bastard....

**On the 5th of March retired GOLD COAST Detective Bill Frohmuller reported that police officers are under pressure from their superiors to fill informal quotas when booking motorists for motoring offences.

Bill reckons "If you don't get en-ough numbers up in whatever departm-ent you're in,you'll be told you're not performing and will be threaten."



** A man who spat at a police officer was jailed for 6 weeks on the 9th of March.The accused Omid Hafaz Tazroo said he was drunk at the time and remembered spitting on the cops shirt ,but not in his face.

Magistrate Dave (bow before me you scum) Hogan told the court "Spitting on a police officer is an offence which in these times has met with a gaol term on every occasion,"

**A wild brawl broke out in BRISBANES FORTITUDE VALLEY,on the 11th of March when three police officers tried to arrest a Murrey man outside a night -club at about 2.20 am,however other Murrey's that were standing near by came to his add.One police sergeant who thought he could use his torch as a club was knocked to the ground by the angry crowd and was repeatedly kicked in the head and body by the crowd that consisted of both men and wimmin.

Two dog squads and nine extra cops were brought in before police regain -ed control

Police Commisioner Greg (I'LL GET THOSE BLACKS)Early said,"The dingo comes out in people and the boots go in, i don't like to see my people used as punch bags."

Well Early you fucken dick,we don't like to see our people used as punch bags either,but it's something we have had to get used to as it happens every other night.

DANIEL YOCK will be remembered even after your cover ups,so don't be surprised if a few more of your scum get decked in the near future.

**On the 19th of March Peter Smith was find $600 in a GOLD COAST courtfor obscene language,obstruting police, punching a policesow in the stomach and possessing pot.

Peter denied punching the sow, after all he was handcuffed at the time.

**In another punch up between decent folk and the dicks in blue,a police woman was king-hit,this also happened in the Valley,BRISBANE,see EARLY you've been warned.

Polce reported being called to the asistence of their fellow bastards on 12th of March when 40 people attacked them as they tried to arrest another Murrey.

Duh, More Hair Than Brains OZ..94.....

THIS ISN'T REALLY AN ARTICLE,IT'S MORE OF AN UPDATE OF WHATS BEEN HAPPENING AROUND THE COUNTRY ON THE NAZI/SKINHEAD/FASCIST FRONT.

I GOT THE IDEA TO WRITE SOMETHING AFTER THE OCTOBER ZZZ MARKET DAY IN BRISBANE LAST YEAR.

THE REASON BEING WHILE ACID WORLD WERE PLAYING A GROUP OF ABOUT 8 BONEHEADS & 1 PUNK (THE WANKER IN THE SWASTHIKA SHIRT WITH THE BLOND MOHAWKE)THOUGHT THAT IT WOULD BE COOL TO SEIG HAIL & THROW PUNCHES RANDOMLY AT THE CROWD.

THIS RESULTED IN A GROUP OF PUNKS AND OTHER DECENT FOLK GETTING PHYSICAL AND EVENTUALLY CHASING THEM OFF,WE WEREN'T ORGANIZED AND THIS RESULTED IN US STALLING AT TIMES AND PEOPLE GETTING HURT.

BUT AS IT WAS A SPUR OF THE MOMENT THING,I THINK WE HANDLED IT QUITE WELL.

ANYWAY SINCE THEN FASCIST SCUM HAVE RISEN THEIR UGLY (NO DENYING THIS) HEADS IN DIFFERENT PARTS OF THE COUNTRY.

LUCKILY FOLK HAVE ORGANIZED AND COUNTER ATTACKED THEIR DEMOS ETC.

ON WITH THE UPDATE.

ANDREW.

ADOLF HITLER ONCE SAID,"THE ONLY WAY OUR ENEMIES COULD HAVE STOPPED US WAS IF THEY HAD CRUSHED OUR MOVEMENT IN IT'S INFANCY-WITH THE UTMOST FORCE"

Well for once he said something that I'm going to take notice of.How about you???????????

MELBOURNE..

Anti fascist demo

The inner city northern suburbs has seen an influx of boneheads and fascists moving into the area. This has meant an increase in fascist activities- nazi graffiti, physical attacks, etc. The inner northern burbs have a large ethnic and working population. A demo was organised in Northcote to counter these fascist activities. About a 100 people initially turned up - the flyers calling the dem stating that people should be punctual to avoid isolation and possible attack, as well as asking people to wear masks to avoid identification and possible reprisal. A lot of people did wear masks, however a lot of people didn't. The usual trot arseholes were there selling their papers but suprisingly didn't try to hijack the demo and lead it. The demo marched through the streets to a long wall where many people armed with solvent and brushes removed disgustingly racist and ableist graffiti. The demo then went back to the main street. A group of abour 8

boneheads were following the demo which then turned on them - about 200 people. They nazi saluted, unfurled their flag but as people edged toward them, the kops had no choice but toi escort them away if they wanted to avoid confrontation. The deom followed as the the nazis were escorted and broke through the escort to physically attack the fuckers, as there were only a handful of kops. The street was completely filled - about 300 plus. The kops lead the nazis for about 10 minutes through back streets hoping to get to the shopping centre where they could get away. Just before they got there, we grabbed some of the nazis and started laying into them. The kops jumped in and dragged the nazis away to safety. Soon kop cars, choppers, etc raced from all directions. the demo hit the main street, picking people off the streets and leafleting the businesses and shoppers, and ended at a park with an open mike.

The demo was marred by two things - a number of non-violent activists who hindered any attempt to physically confront the nazis and insulted those who engaged in confrontation with banal statements as "you are no better than them" and references to machismo and dicks. They failed to see that those who were physically confronted the nazis were both men and wimmin, and that not violently attacking them effectively forces people to live in fear.

Another thing was the criticism of wearing masks. The trots claim that it places us in a position of defence - but then again they want to become recognised so as to become martyrs - just like the Austudy 5 (what a crap name). Class activists have no need to be detected by pigs and to face imprisonment and kop torture. Also there were a number of cameras at the demo and it is easy for someone to take photos of any illegal activities and to hand it over to the kops. The media does it all the time - remember the ABC was going to hand over its footage to the kops to help them identify the four arrested at the Austudy demo.

"JACKBOOT CRUSADE"SCUM OF TOYTOWN.

On March 12 about 500-1000 anti-fascists rolled up to counter a 30-strong National Action demo who were fighting for the rights of white nationalists. About 100 kops were there to keep anti-fascists from getting close to the nazis and mounted kops kept busy Sydney Road clear for an hour or so. The anti-fascists finally broke through and blocked the road as they virtually surrouned the nazi demo on the other side of the road outside Brunswick Town Hall. The nazis were pelted with eggs and horseshit. The kops lined the trams bumper to bumper down Sydney Road to use as a barrier as they tried to escort the nazis away. About 100 anti-fascists raced down the other side of the tram barrier to chase them but were held back by mounted kops. They ran further down the road, through back alleys and side streets and, armed with rocks and sticks, confronted the nazis as they were retreating down the bike track along the train line. They retreated back to a main street, protected by the mounted kops who were preventing the anti-fascist youths from running after them. The group then joined up with others back at the demo and chased the nazis down the street. The kops bungled the nazis through a series of factories to Brunswick Train Station. They surrounded the station to prevent us from getting the nazis. About 15 of us blocked a boom gate to prevent trains from arriving but mounted kops forced us off and opened the line. If the people who stopped chasing the nazis and went back to the Town Hall had been there(as the trots were ordering people to do), we could have stopped the nazis from fleeing, but they were too busy patting themselves on the back at the Town Hall. Its going to take more than just a physical presence to stop fascist organisation. We really could have shown exactly what we thought of nazis, if we were able to prevent trains from picking the nazis up at the station. It also saids something about what train drivers could have done by refusing to escort the nazis away. Unfortunately, people think that by ignoring them they'll go away or that they'll get discouraged by passive condemnation. These ideas underestimate the determination of the fascist groups.

NO GROUP OR RACE OF PEOPLE SHOULD NEVER RULE A WORLD,
THE END OF WHITE WORLD SUPREMACY,THE END OF WHITE WORLD SUPREMACY.
THE FALL OF THE KKK & NAZISM,AHUMAN DREAM COME TRUE.
THE END OF WHITE WORLD SUPREMACY,THE END OF WHITE WORLD SUPREMACY.
"END WHITE SUPREMACY"-TOTAL CHAOS.

ADELAIDE..

Well they've raised their ugly mugs in Adelaide as well.I really hate to give them publicity but here it is,the following piece of info was sent to me by a friend that goes to Uni in Adelaide.

Here it is,

M.A.D.(Men Against Dykes)and M.A.W.I.P. (Men Against Women In Power) are real groups in Adelaide.They are putting up "wanted" posters naming the university womens officer and offering $1,500 for her death and $1,000 for her rape.

Nazism is on the rise Australia-wide and there there are many more incidents of similar horror and bashings.

Their targets are anyone living or thinking outside the white-male-supremacist code of conformity, and includes the usual Jews,non-whites,commies,homo -sexuals,but they've started now also on feminists, greenies and alternative lifestylers,strong women and homosexualsseem to be they favourite target.

IN OUR TOWN WE DON'T SEE FASCIST THUGS NOR DO WE SEE MILITANT SKINS,RACISM COMES IN DIFFERENT WRAPPINS: UPPER-CLASS WHITE SOPHISTOS.

THEY'VE GOT THE WEALTH,BUT WE'VE GOT THE POWER,
IT'S UP TO US TO TAKE THEM OUT.

"CLOSET FASCISTS"-DEFORMED CONSCIENCE.

During the last week of March Neo-Nazi skinheads,that were obviously supporters of National Action,rampaged through the Rundle Mall in the city,the boneheads goosestepped their way through the mall shouting rascist slogans and attacked 15 people in the mall causing slight injuies.

Two weeks later members of the Anti-Racist Alliance counter demonstrated a rally of the National Action dickheads in the northern suburb of Prospect. National Action were protesting against the planned federal racial vilification laws. Their speakers spoke while they blarred out wartime MUSIC from Nazi Germany.

Police kept the 200 anti-facists from getting to the 50 Neo-Nazi's.

STANDING OUTSIDE THE PRIMARY SCHOOL GATES/WITH THEIR LEAFLETS STIRRING UP RACE HATE/CREEPING ROUND IN THE DEAD OF NIGHT/SETTING INNOCENT PEOPLE'S HOUSES ALIGHT THEY STAB AND KILL IN RACIAL ATTACKS/JUST HOW MUCH MORE BEFORE YOU FIGHT BACK?/FIND THEM-GRIND THEM-
GRIND THEM-
NAZI SCUM-YOUR TIME WILL COME..

"NAZI SCUM"-OI POLLOI.

45years ago they gave us medals to fight these NAZI scum now they lock us in prison cells for trying to keep these wankers off our streets.

NEVER AGAIN-GEGAN NAZI-BASH THE FASH.

COLOMBIAMAN
on vacation
by Abby
Story idea by Andrew Dove.
Colombiaman decides to take a vacation home for a while.
Bogota, Colombia, South America
Always out for a bargain, Colombiaman mails himself to South America.
but...
A U.S. Mail mix-up sees Colombiaman on the way to Adelaide, Australia!
Russia
South America
South Australia
... and into the hands of the National Crime Authority!
Hmm. Some Filthy Wogs letter's turned up here! Let's open it!
After typical Colombiaman carnage, where he even managed to kill a cop and maim a lawyer all because of a simple postal mistake, Colombiaman relaxes by free-basing coke in the N.C.A. offices!
